What is your favorite season?

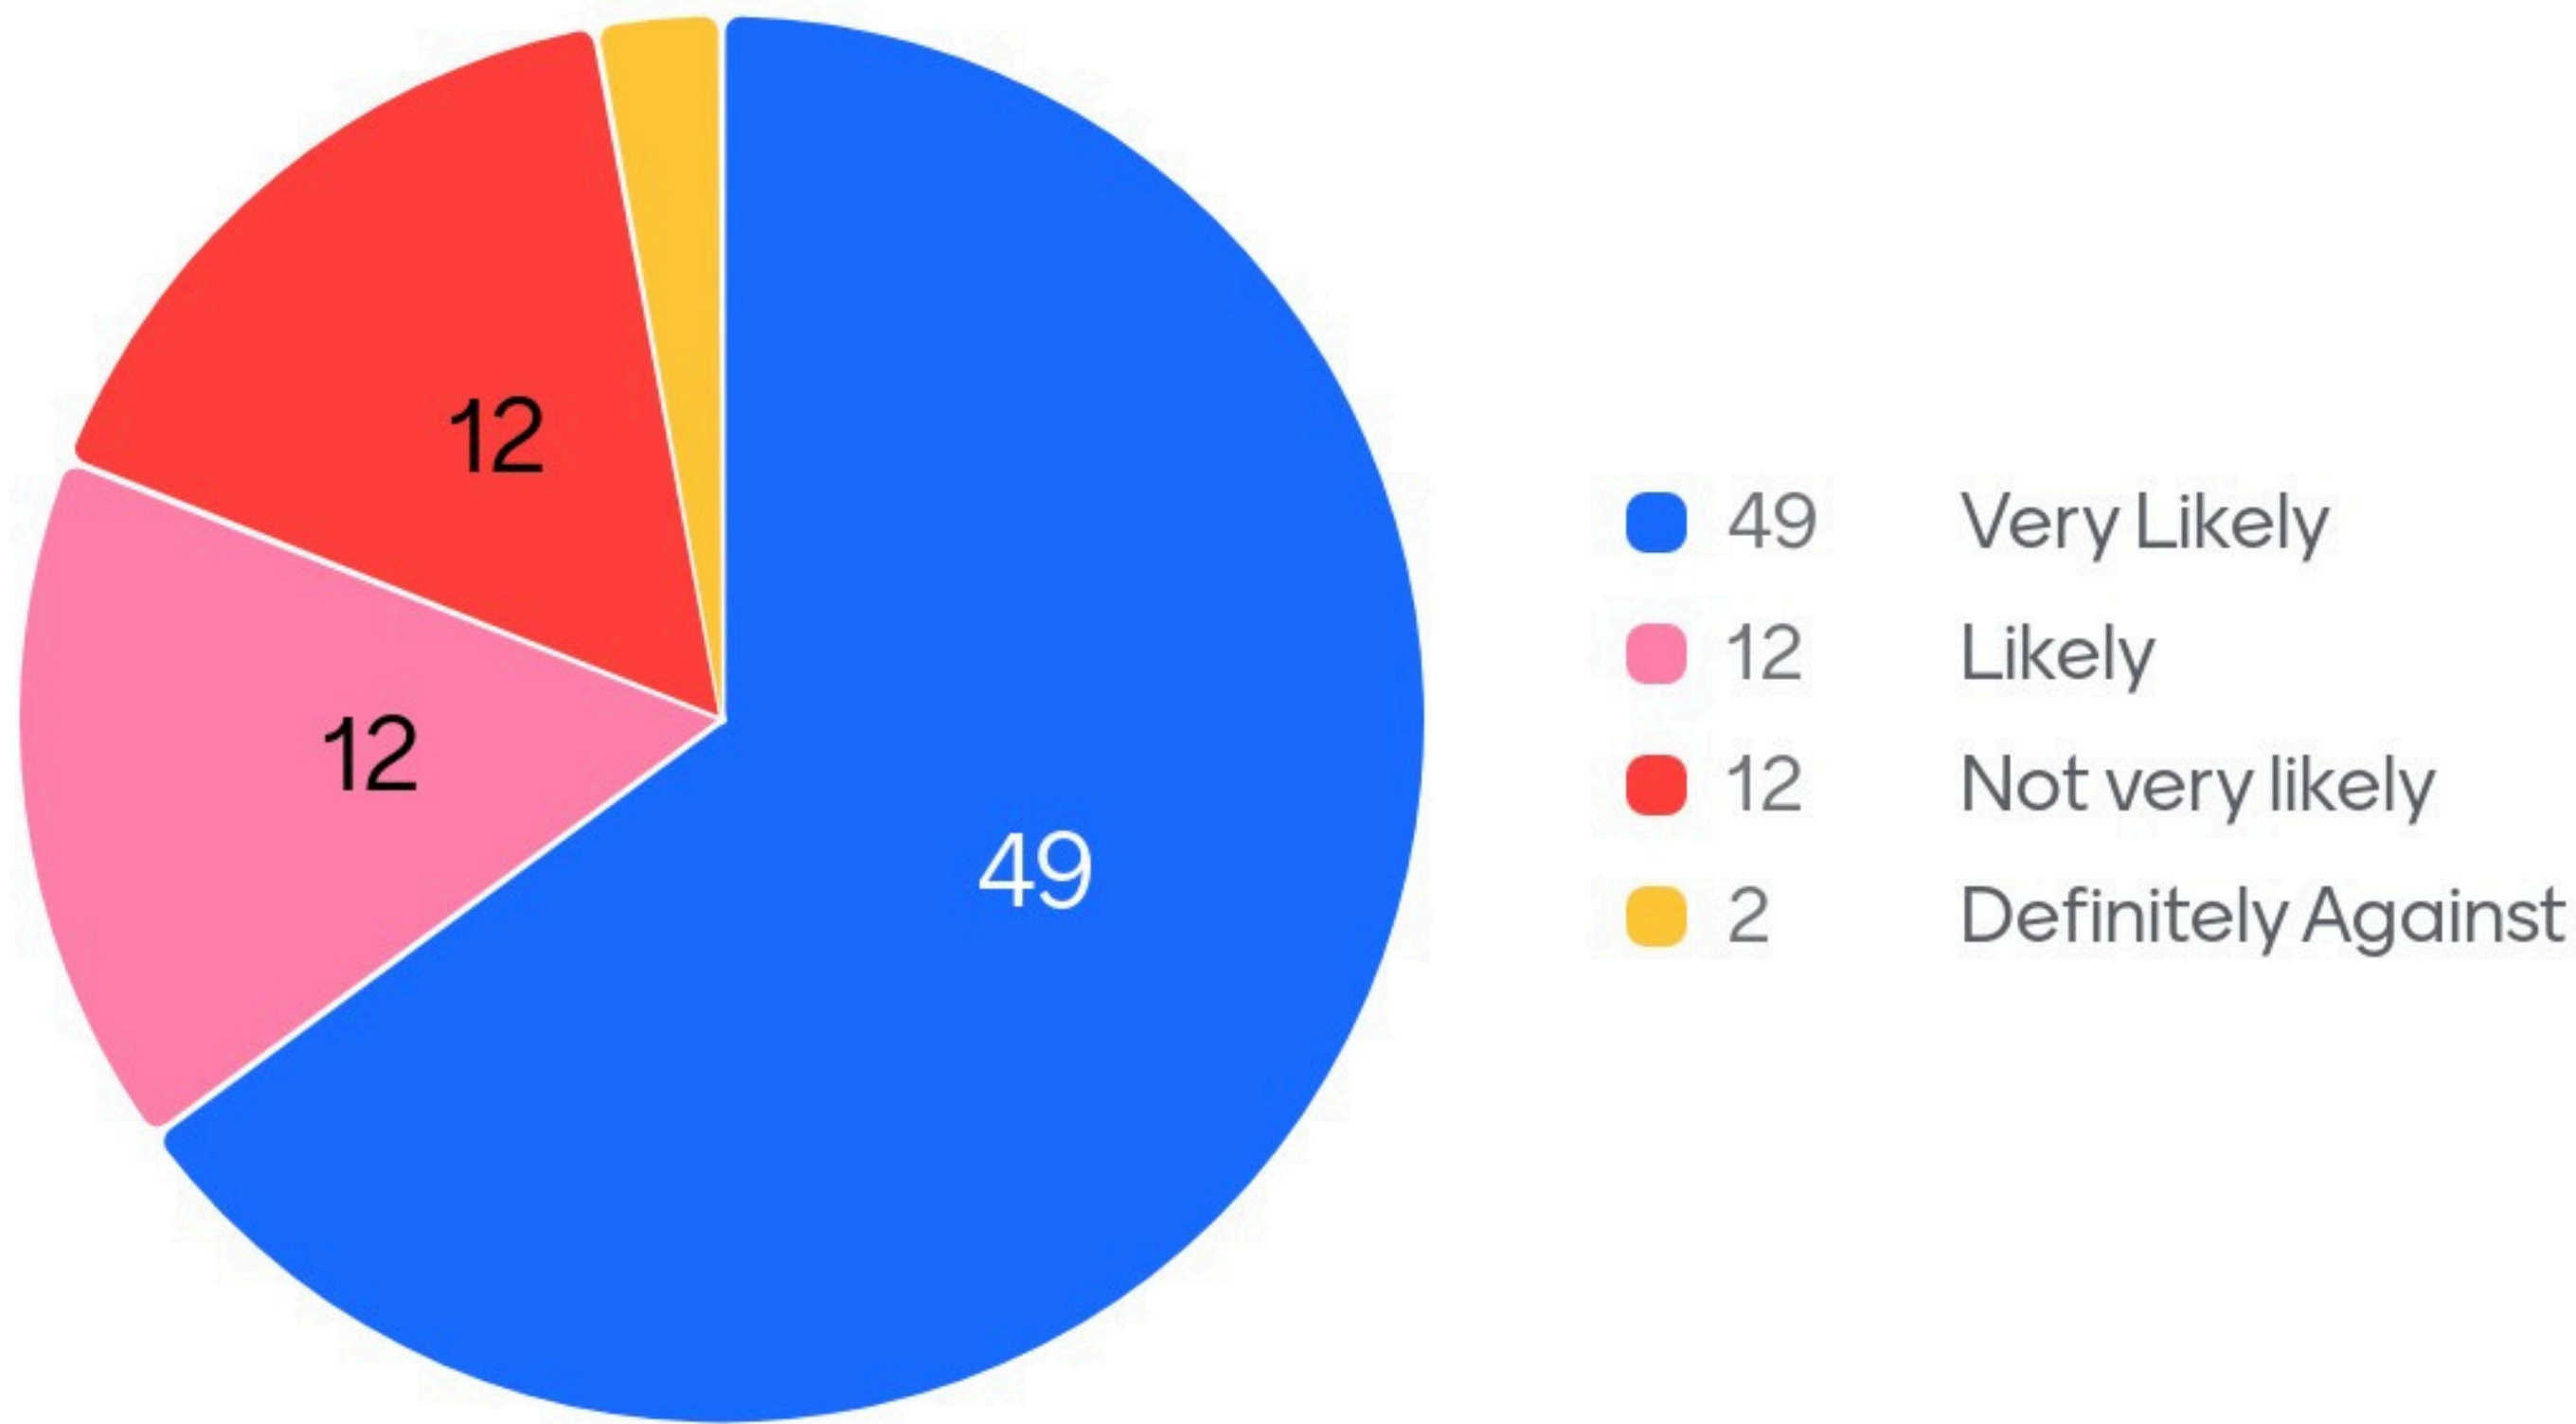

Please rate your level of understanding of each of the following:

I do not understand at all.

I completely understand.

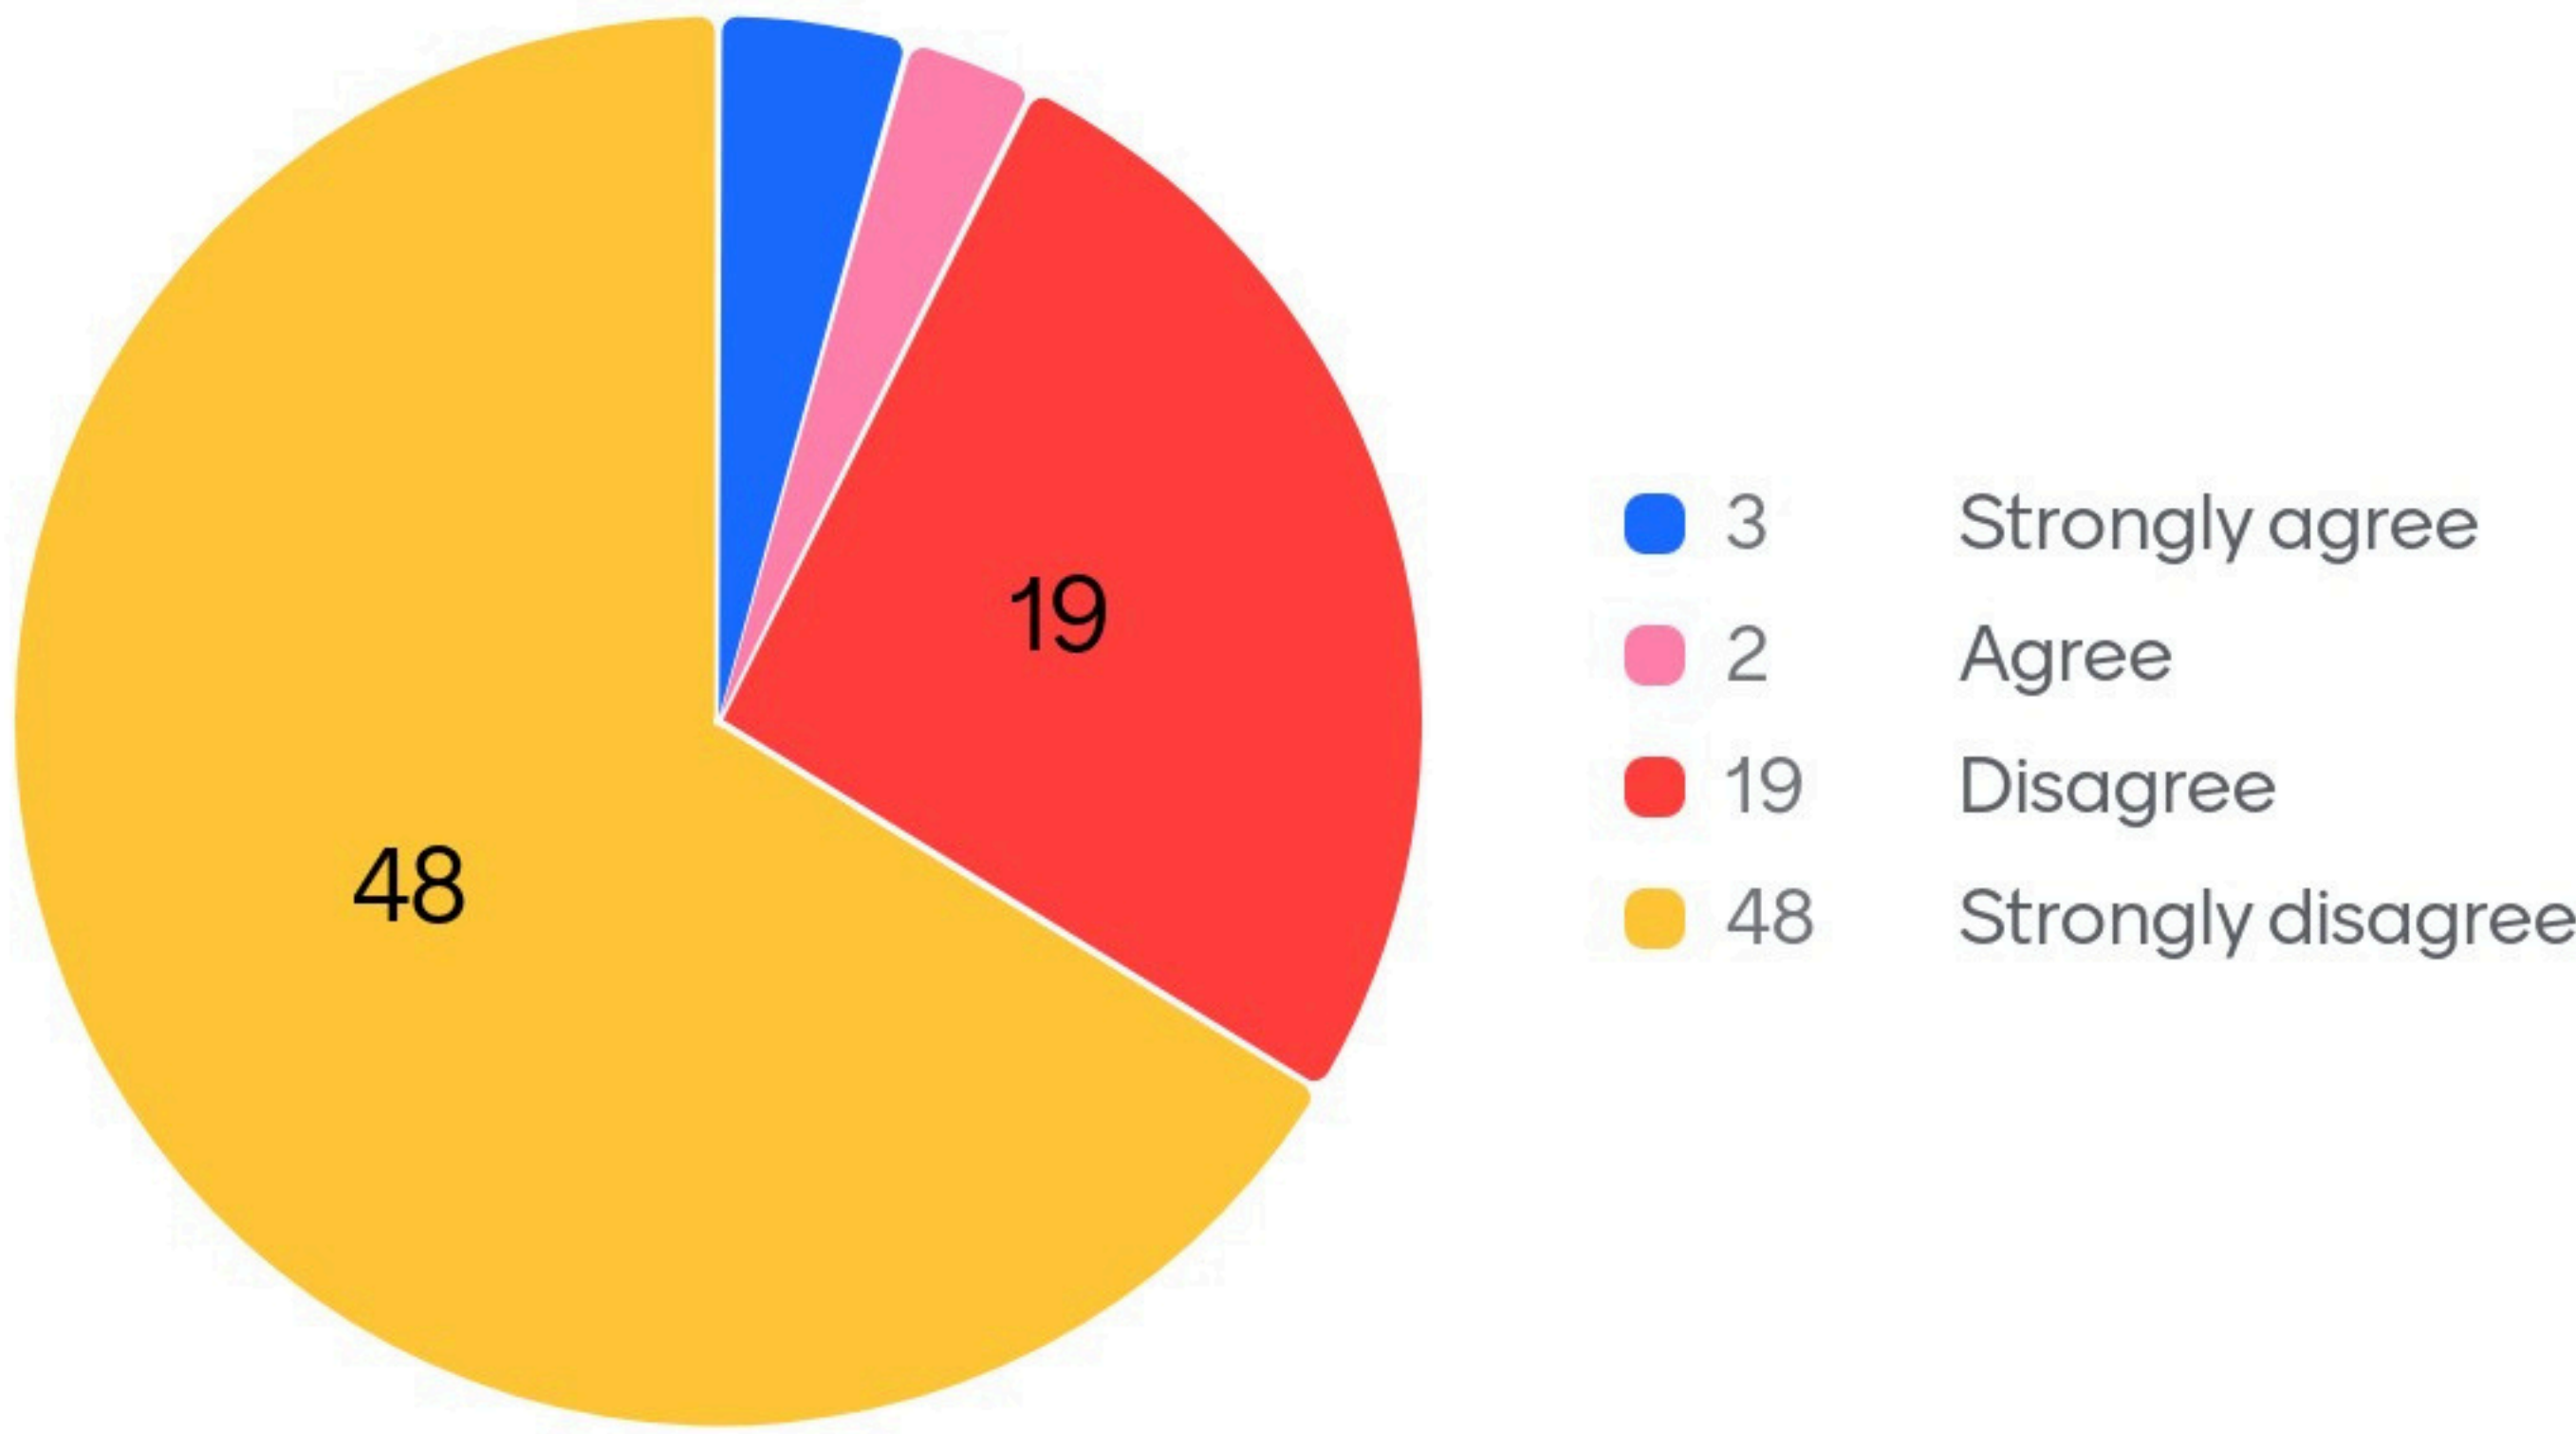

After hearing the needs of the district and opportunities for improvements, how likely are you to support a **no-tax-rate-increase** bond proposal?

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

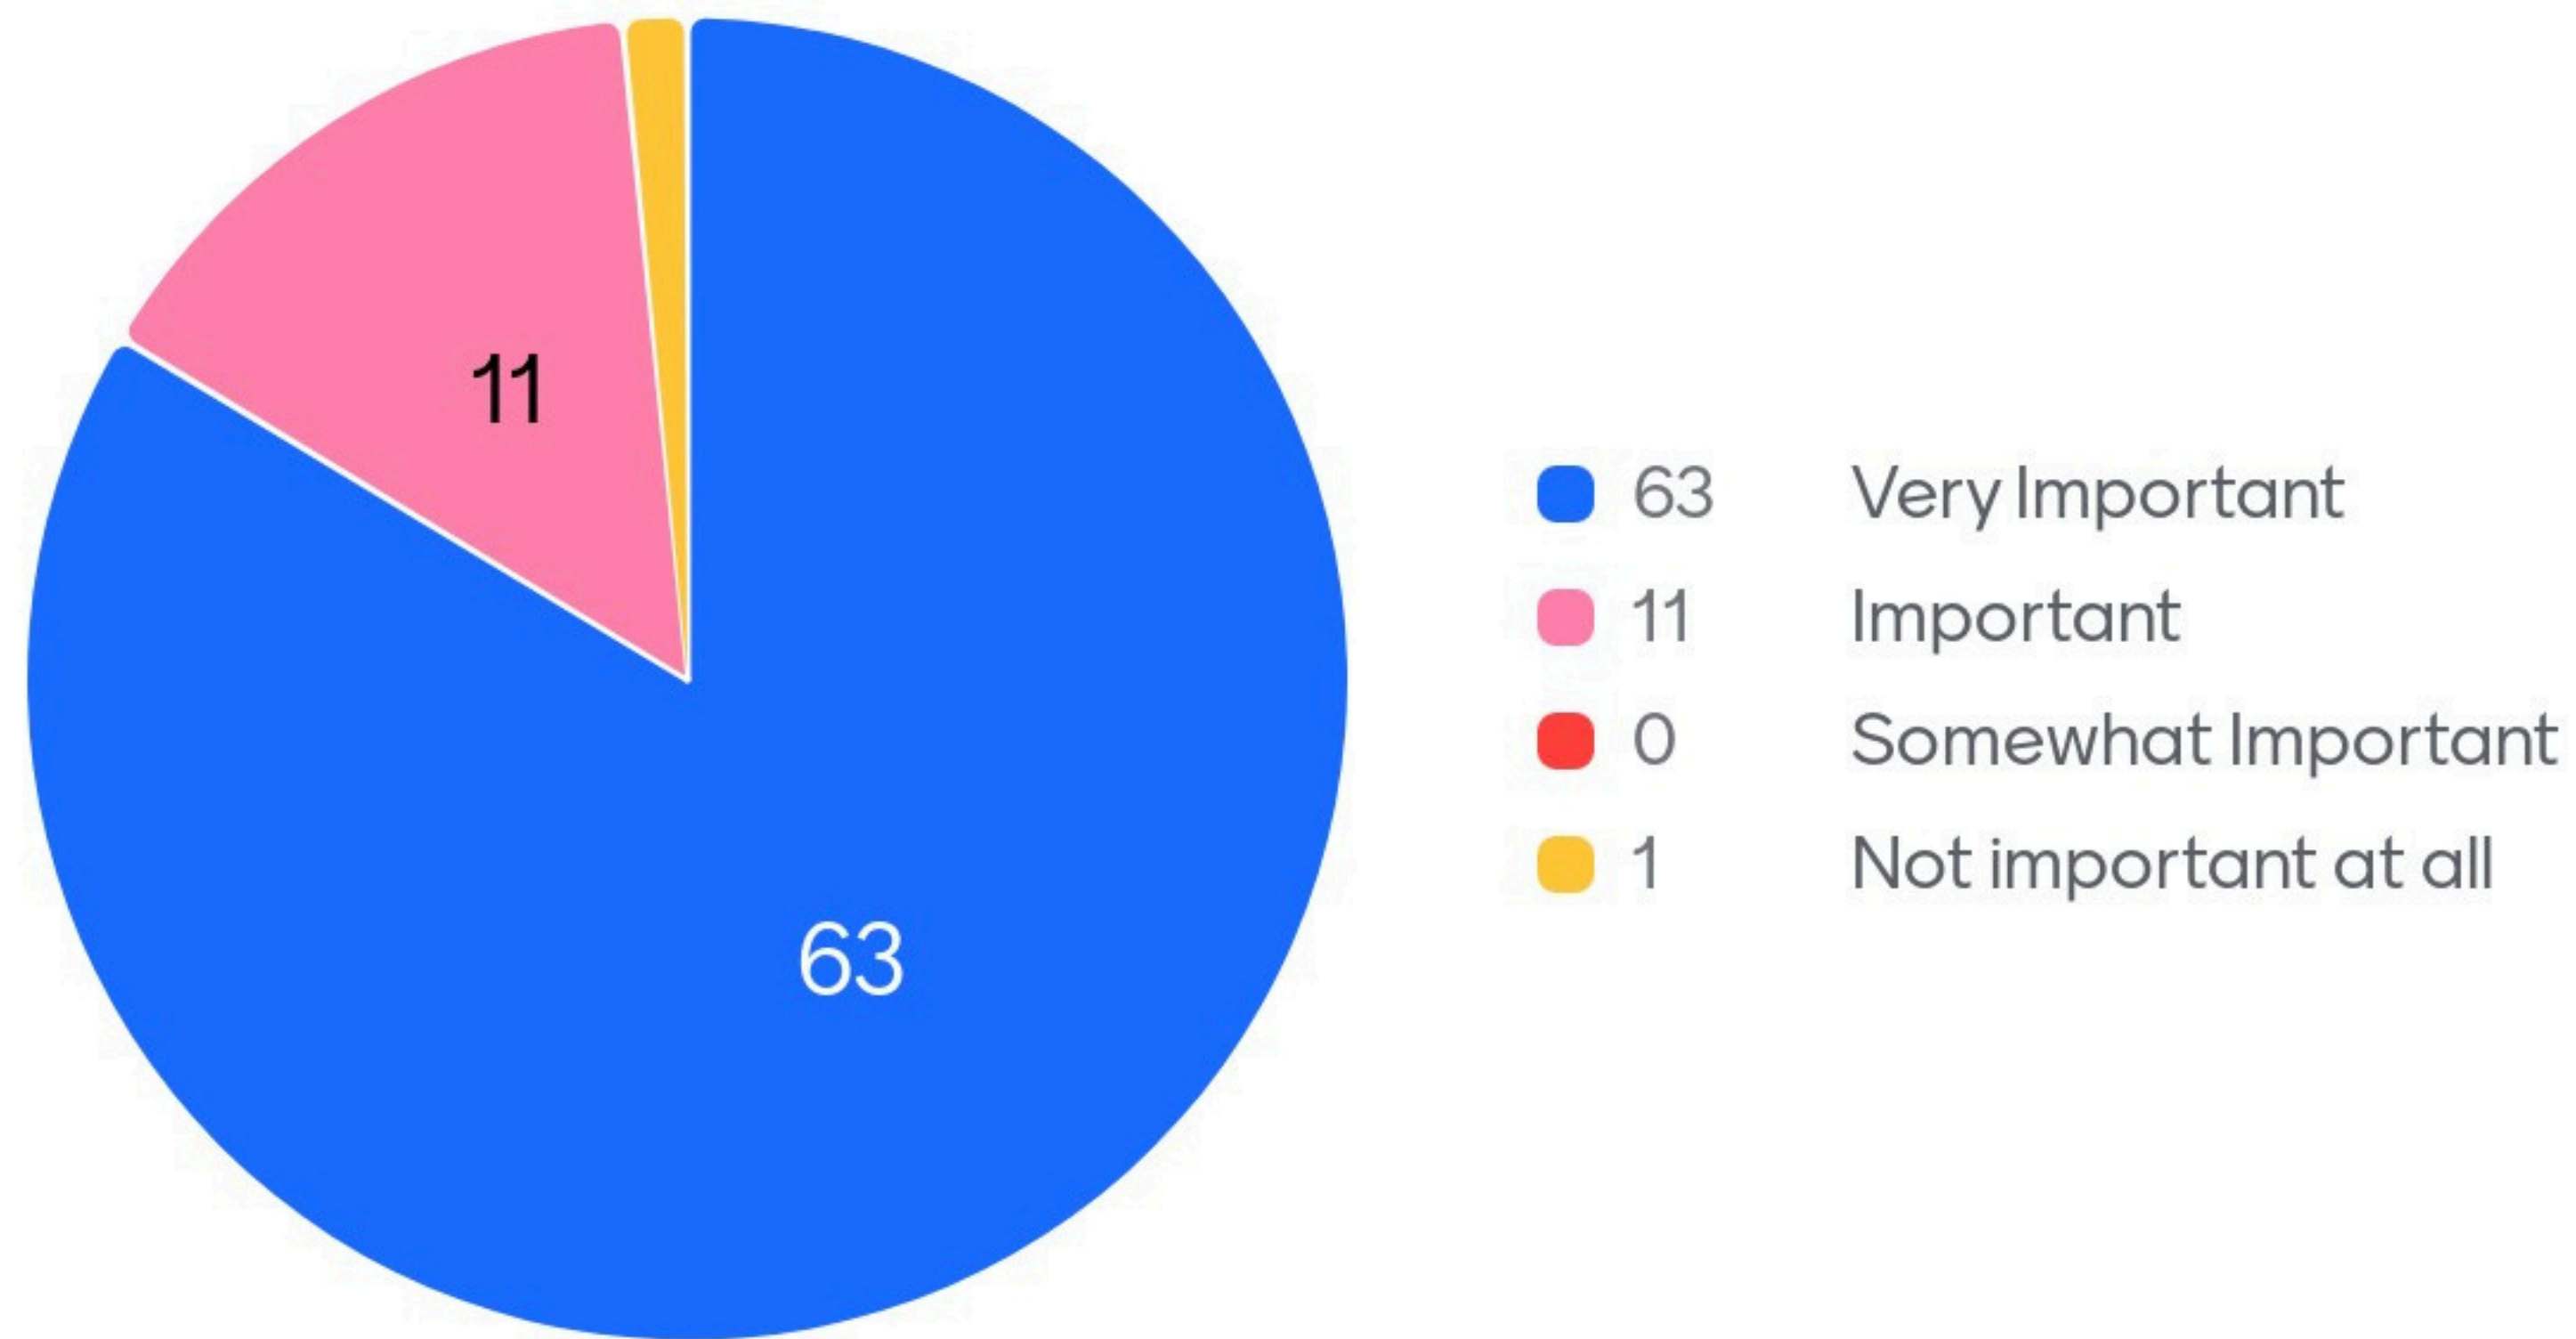

Current conditions of SJPS facilities are adequate for students and community and is representative of our values—We do NOT need a bond proposal.

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

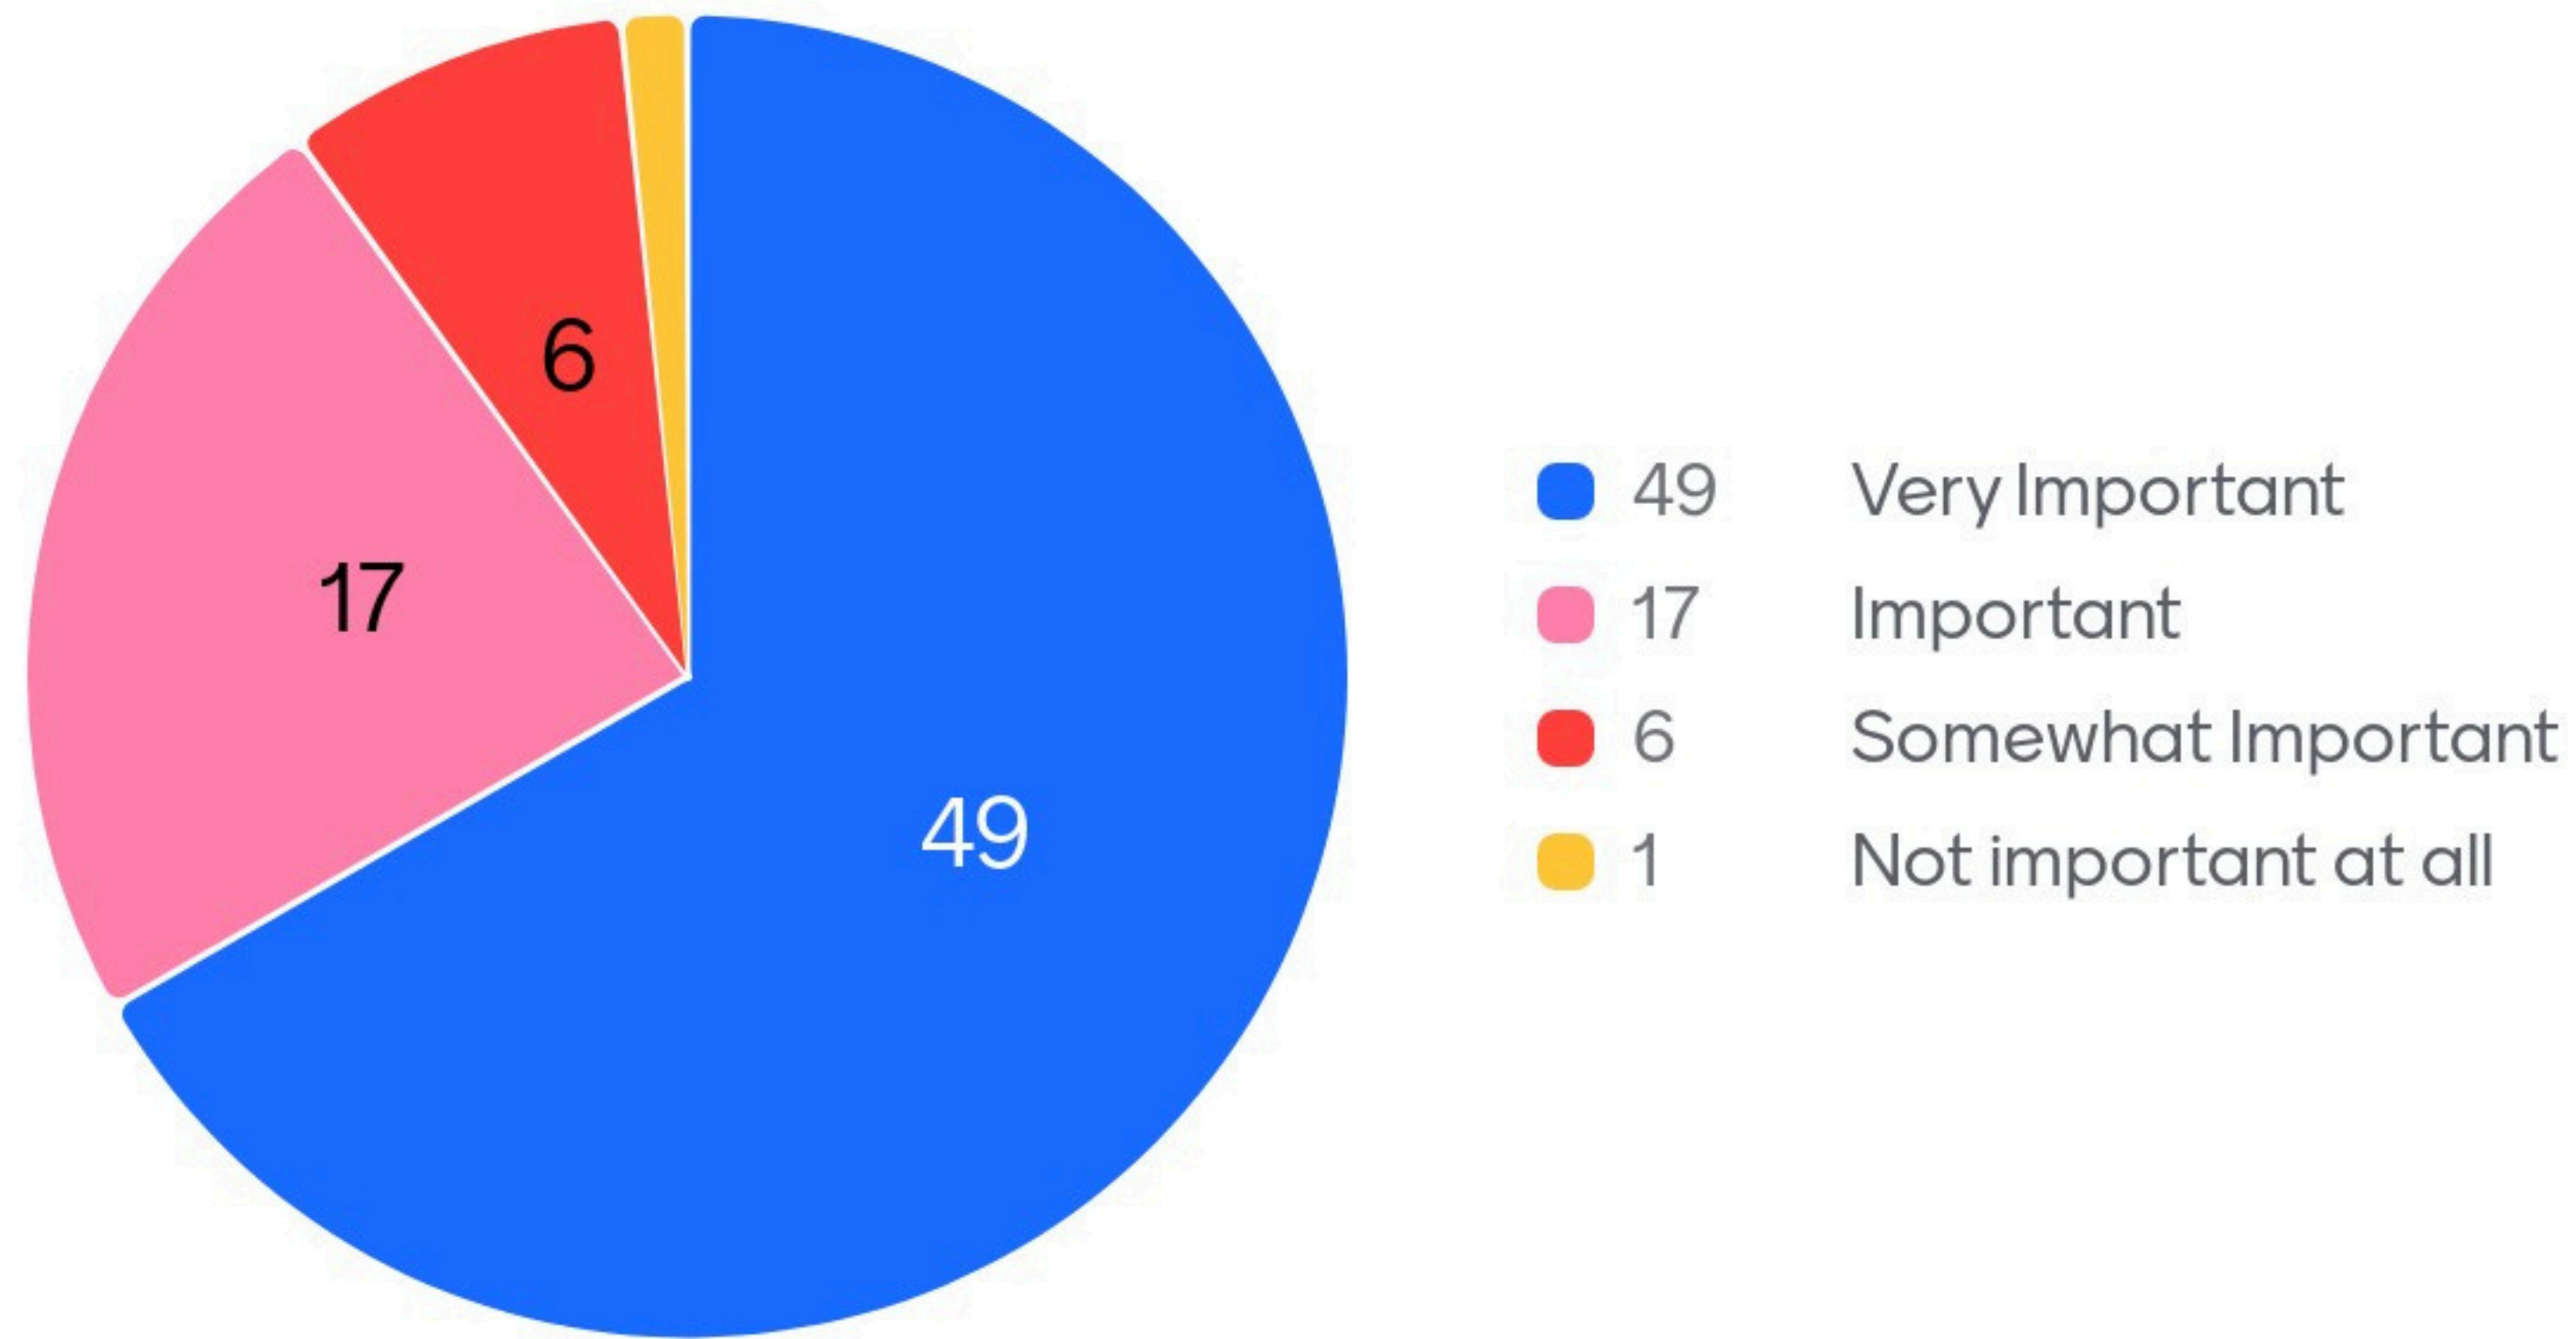

A key priority of the SC is upgrading **safety** with secure doors, stronger locks, updated fire suppression, & cameras. How important is this to you?

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

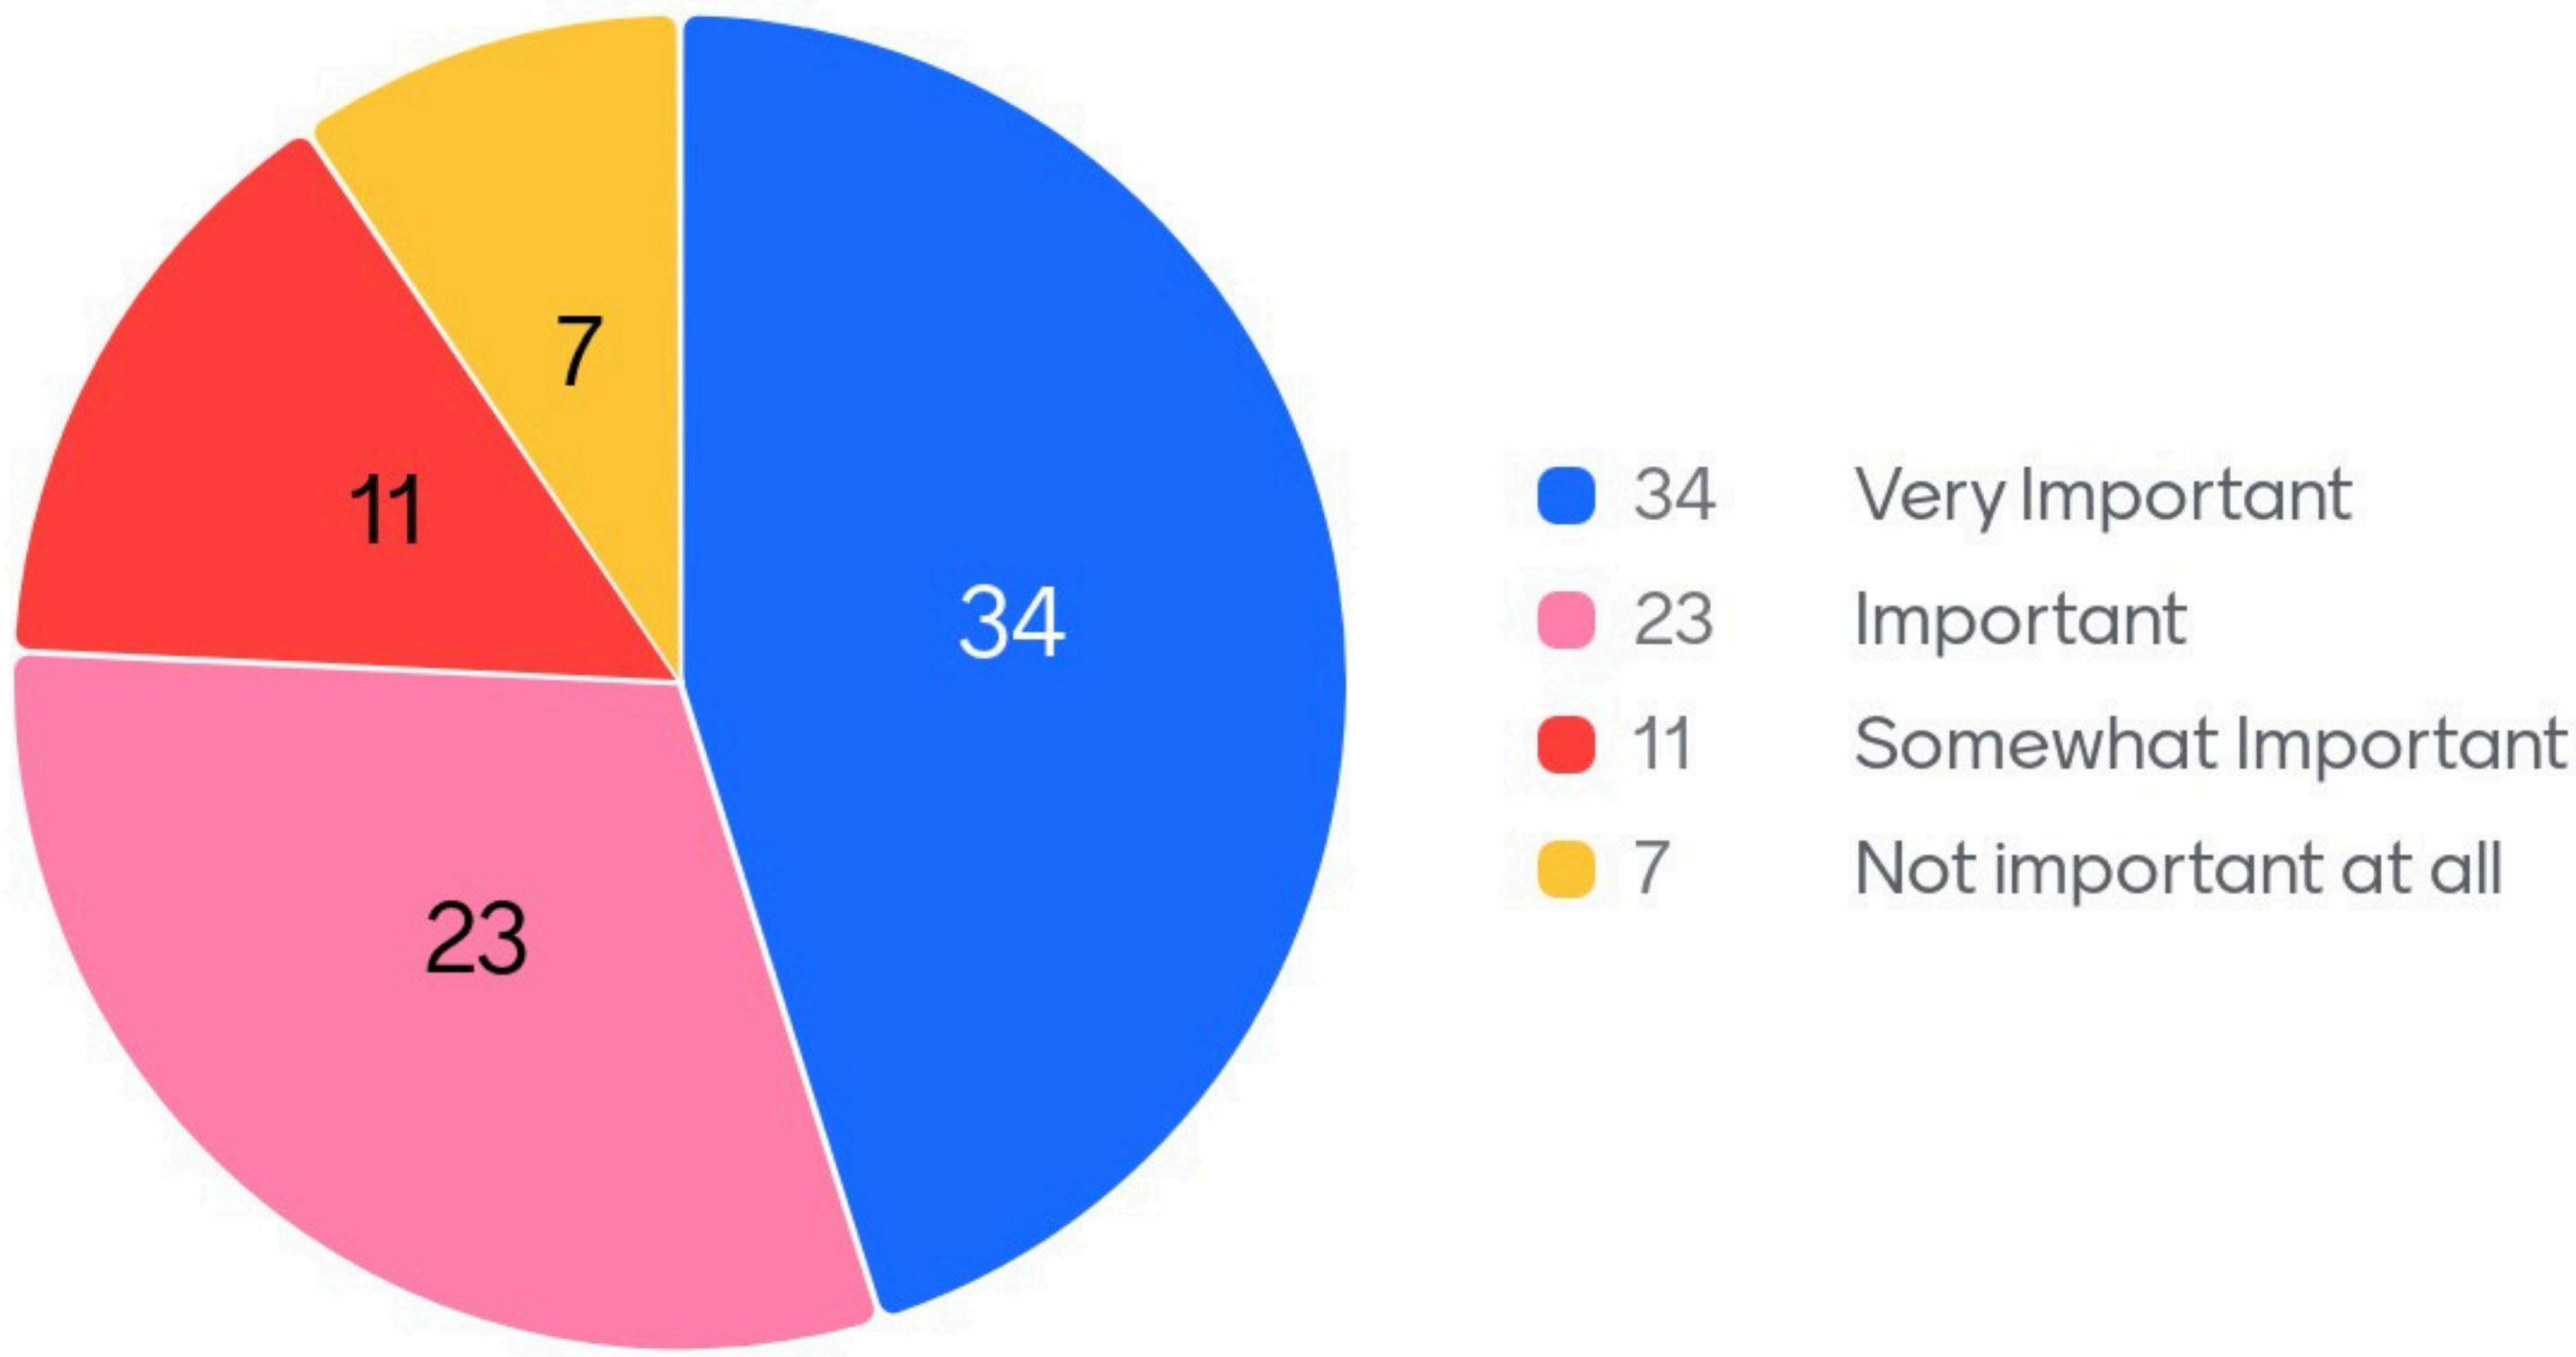

A key priority identified is providing additions to elementaries to allow for smaller class sizes and art/music opportunities. How important is this?

*****Note that these are only responses from those who were in the forum*****

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

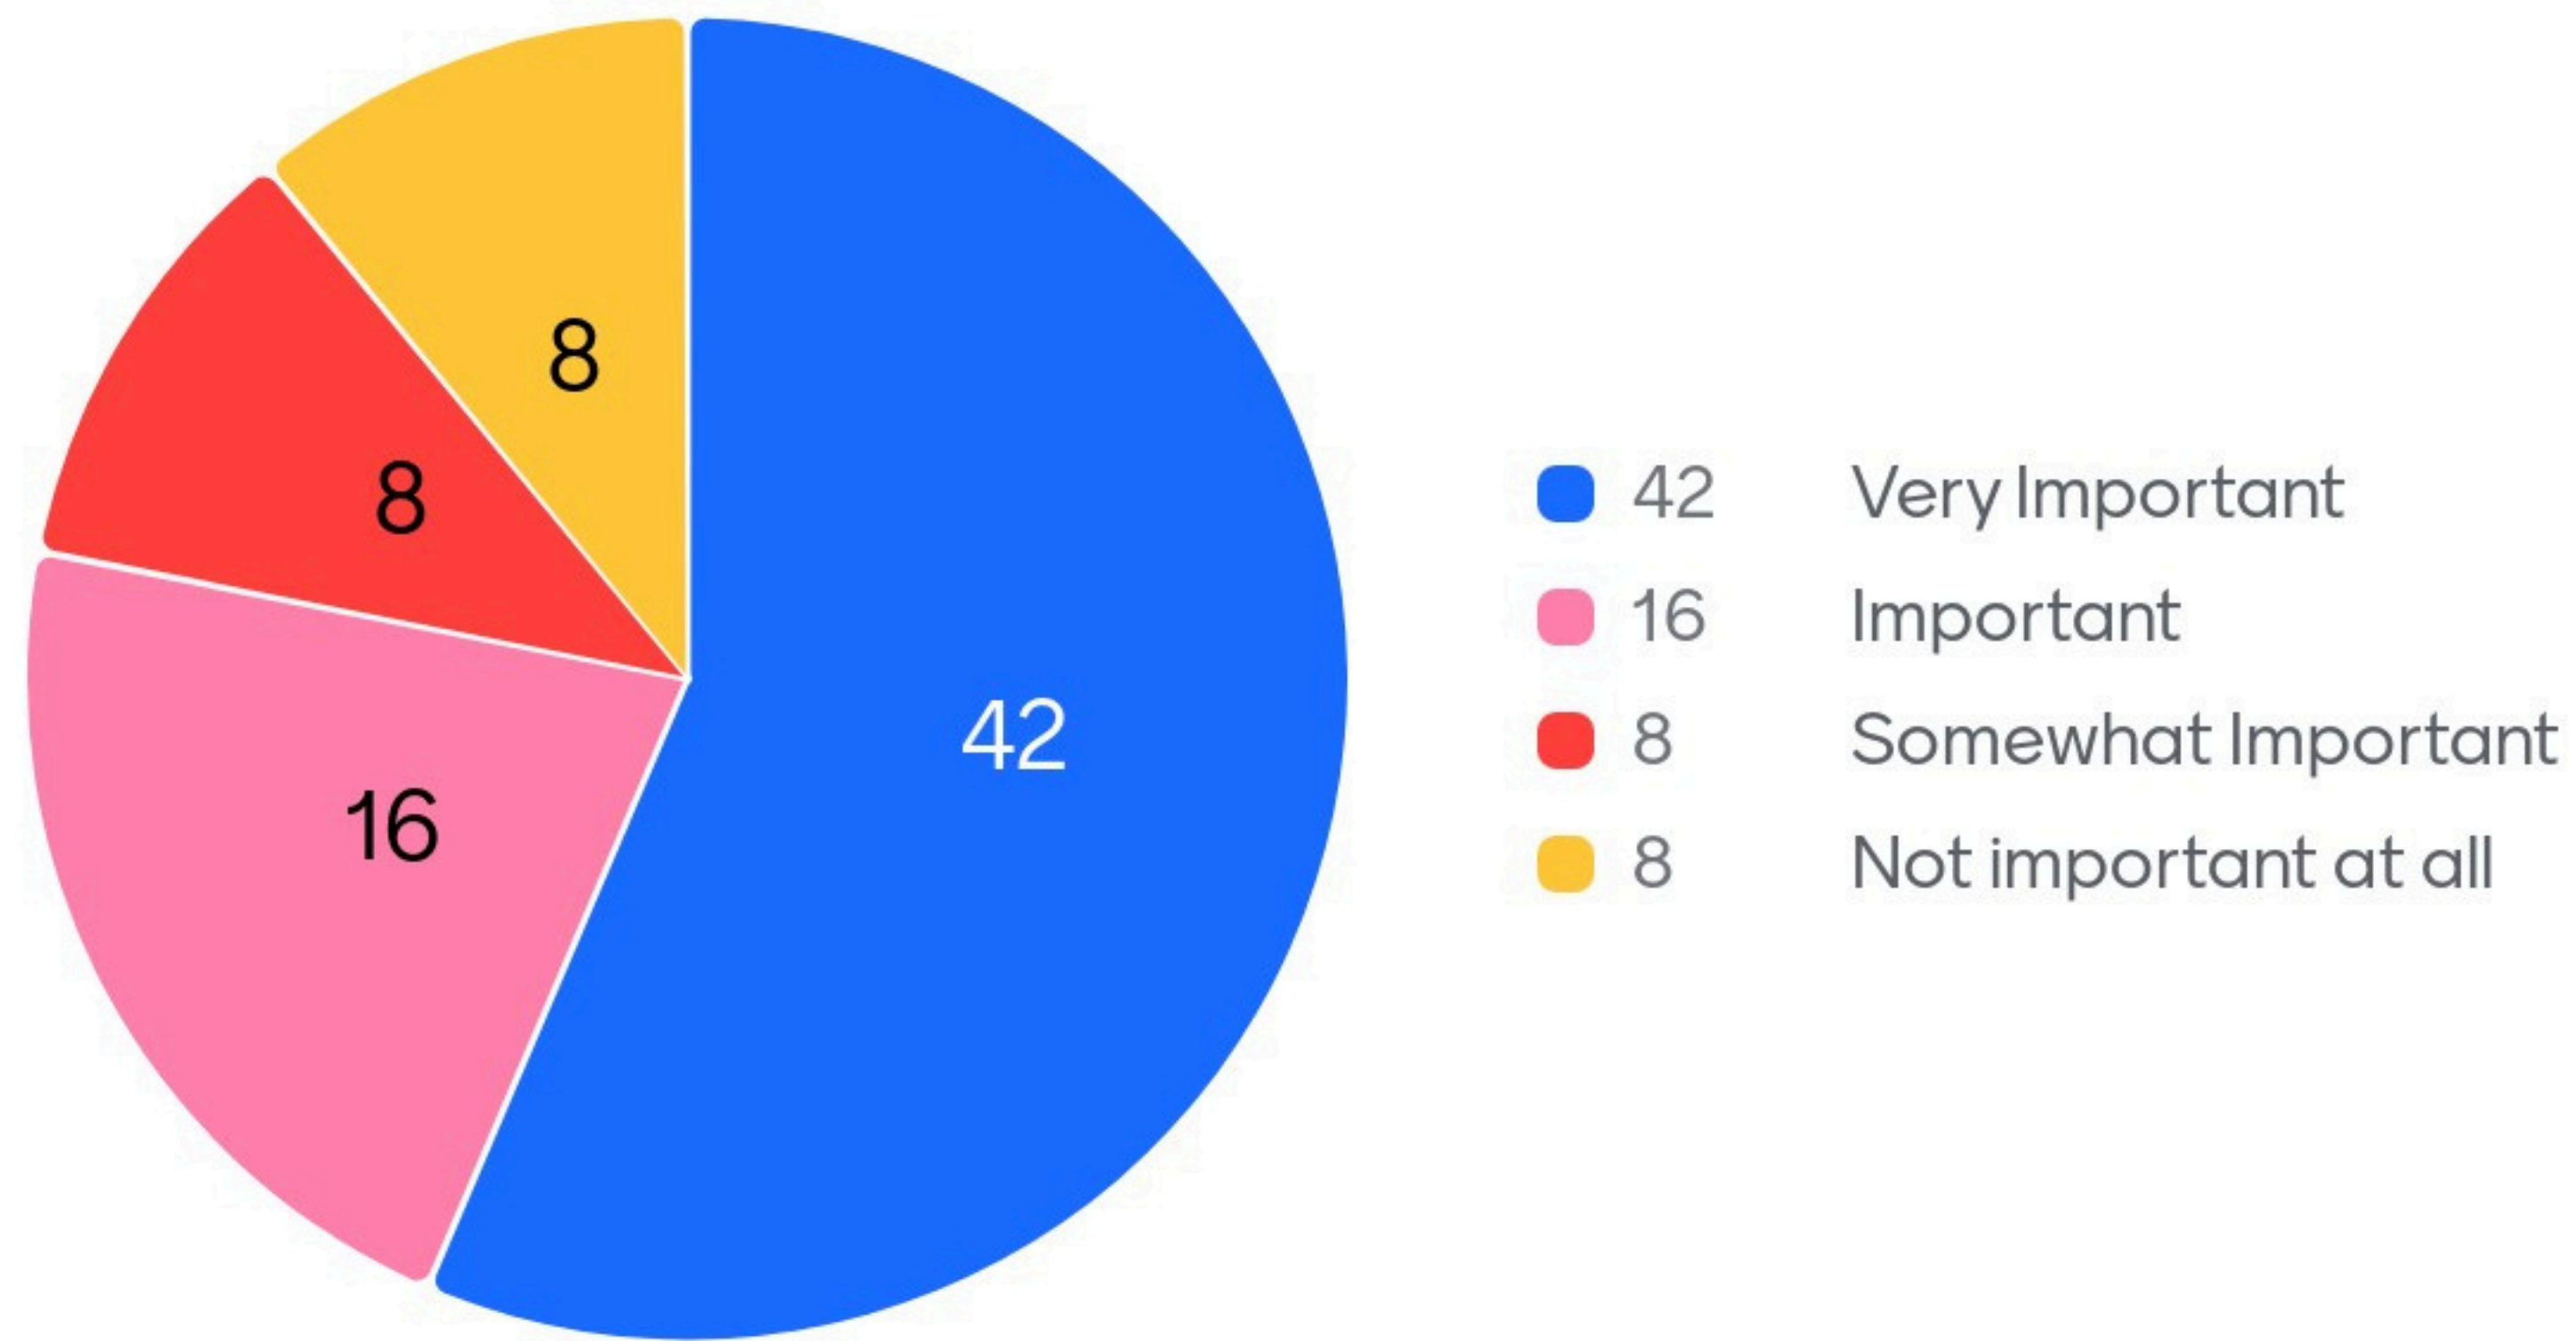

A key SC priority is continuing to invest in our fine arts program with updated instruments and auditorium stage/lighting. How important is this?

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

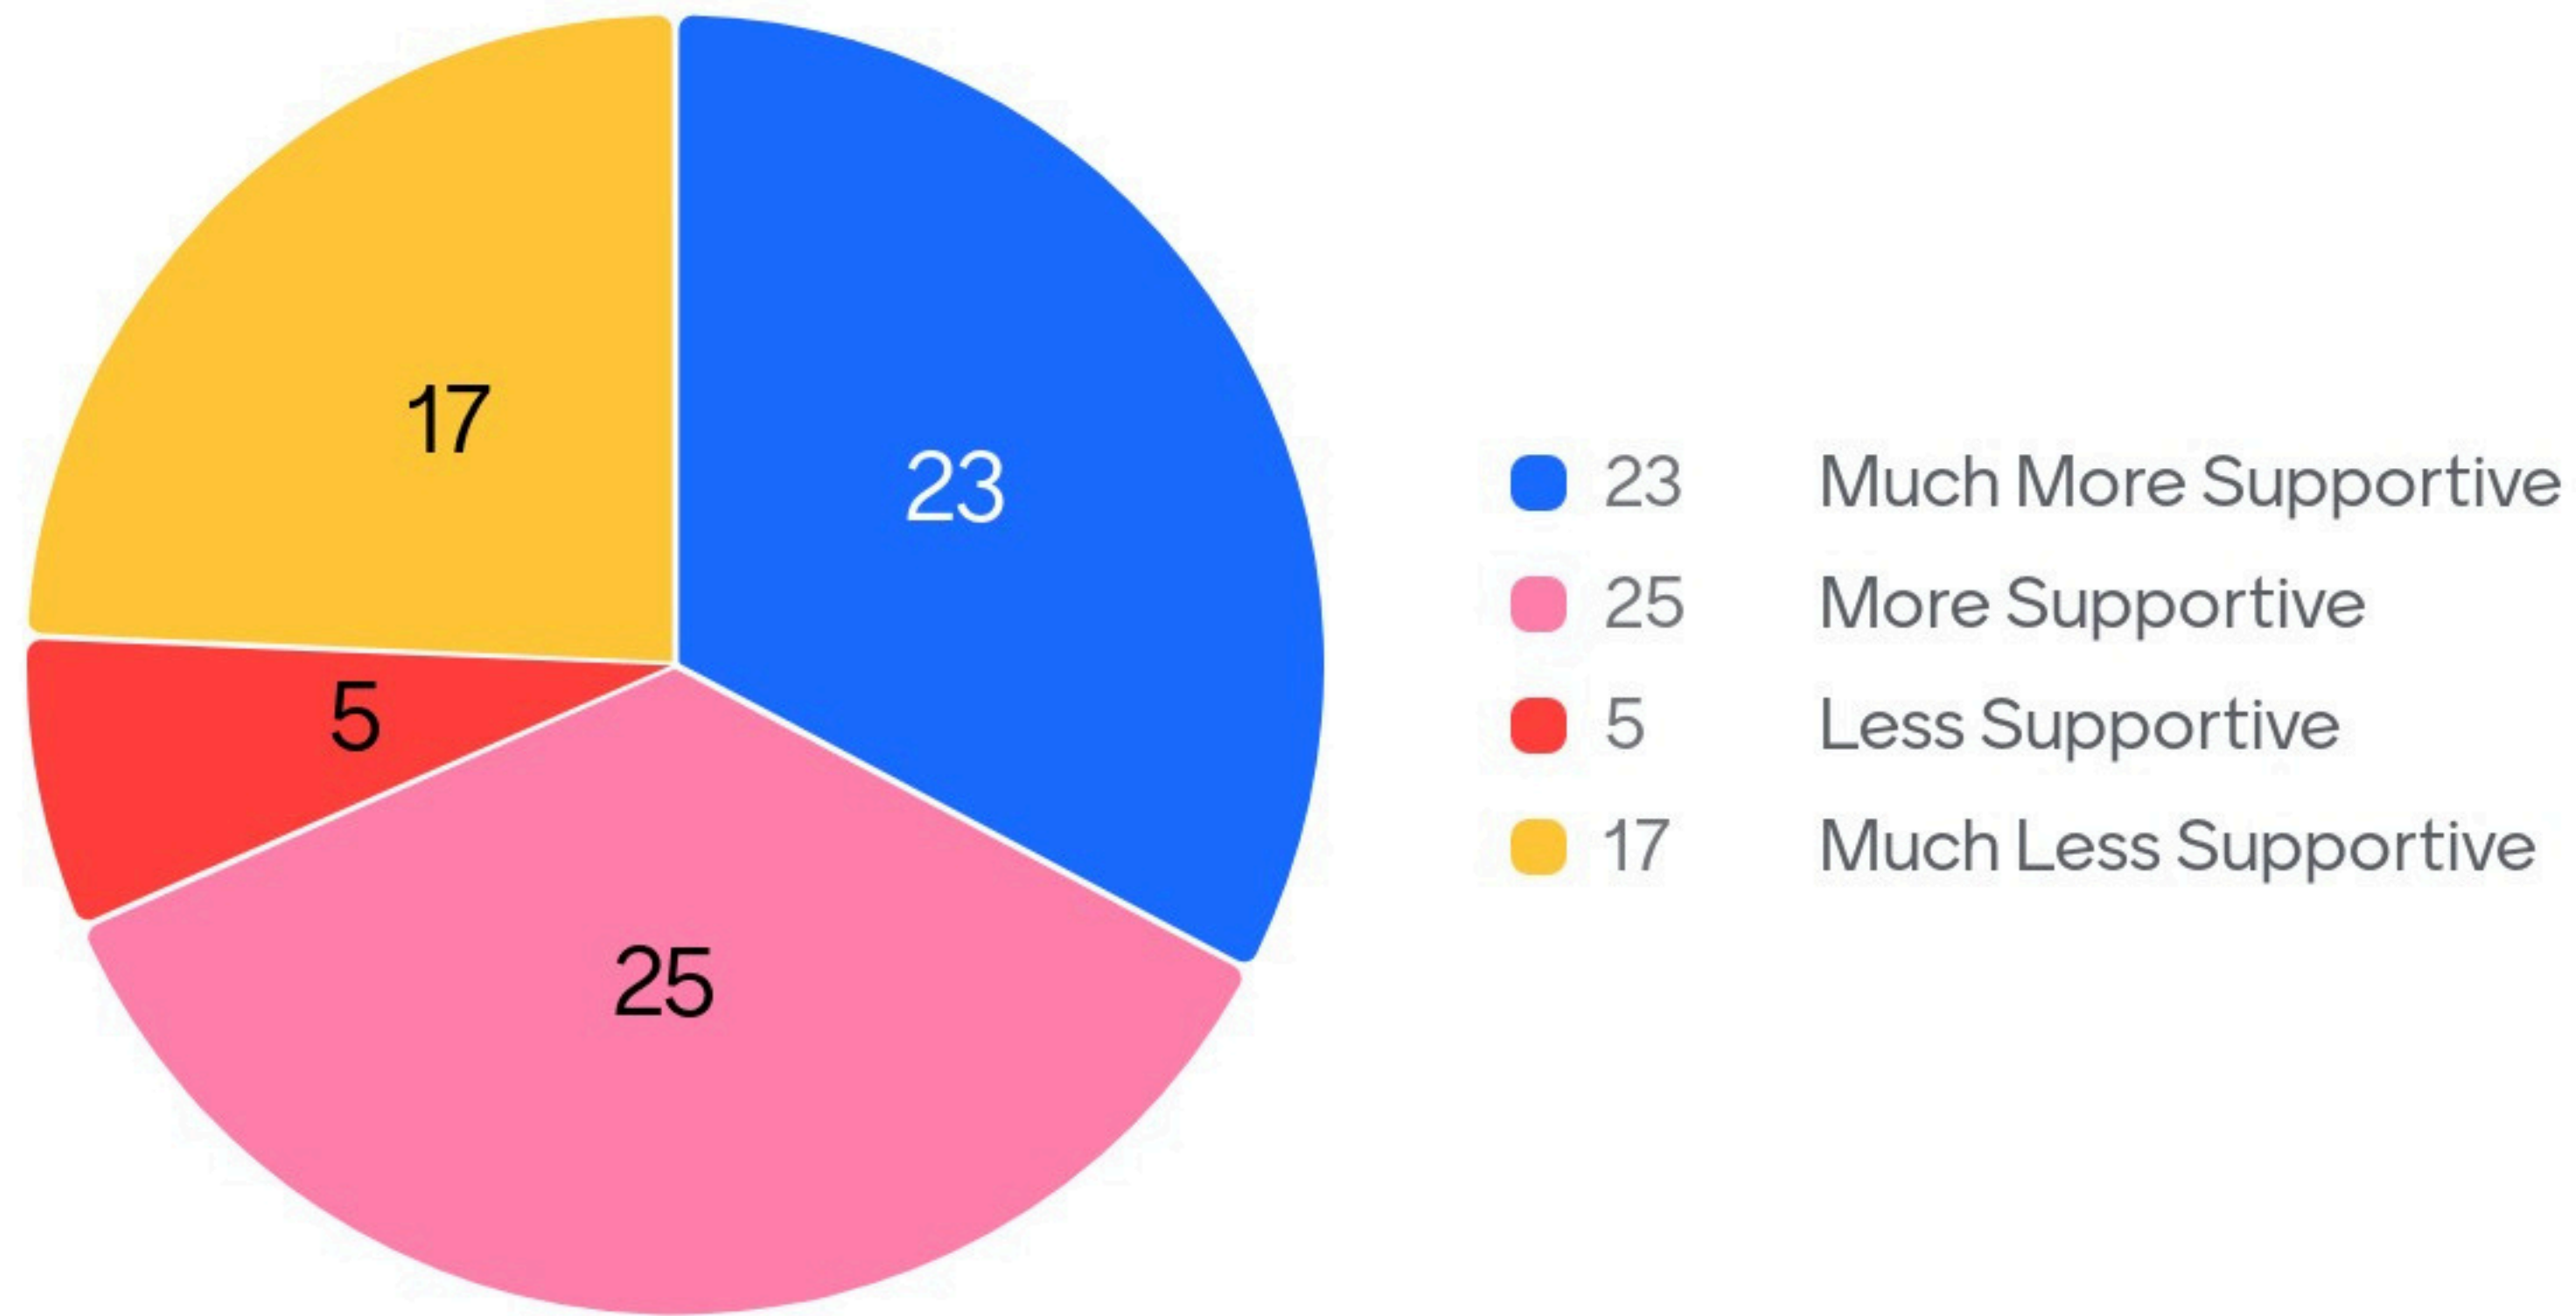

A key SC priority is creating a combined early learning center for Kindergarten, Pre-School and tuition-based childcare. How important is this?

*****Note that these are only responses from those who were in the forum*****

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

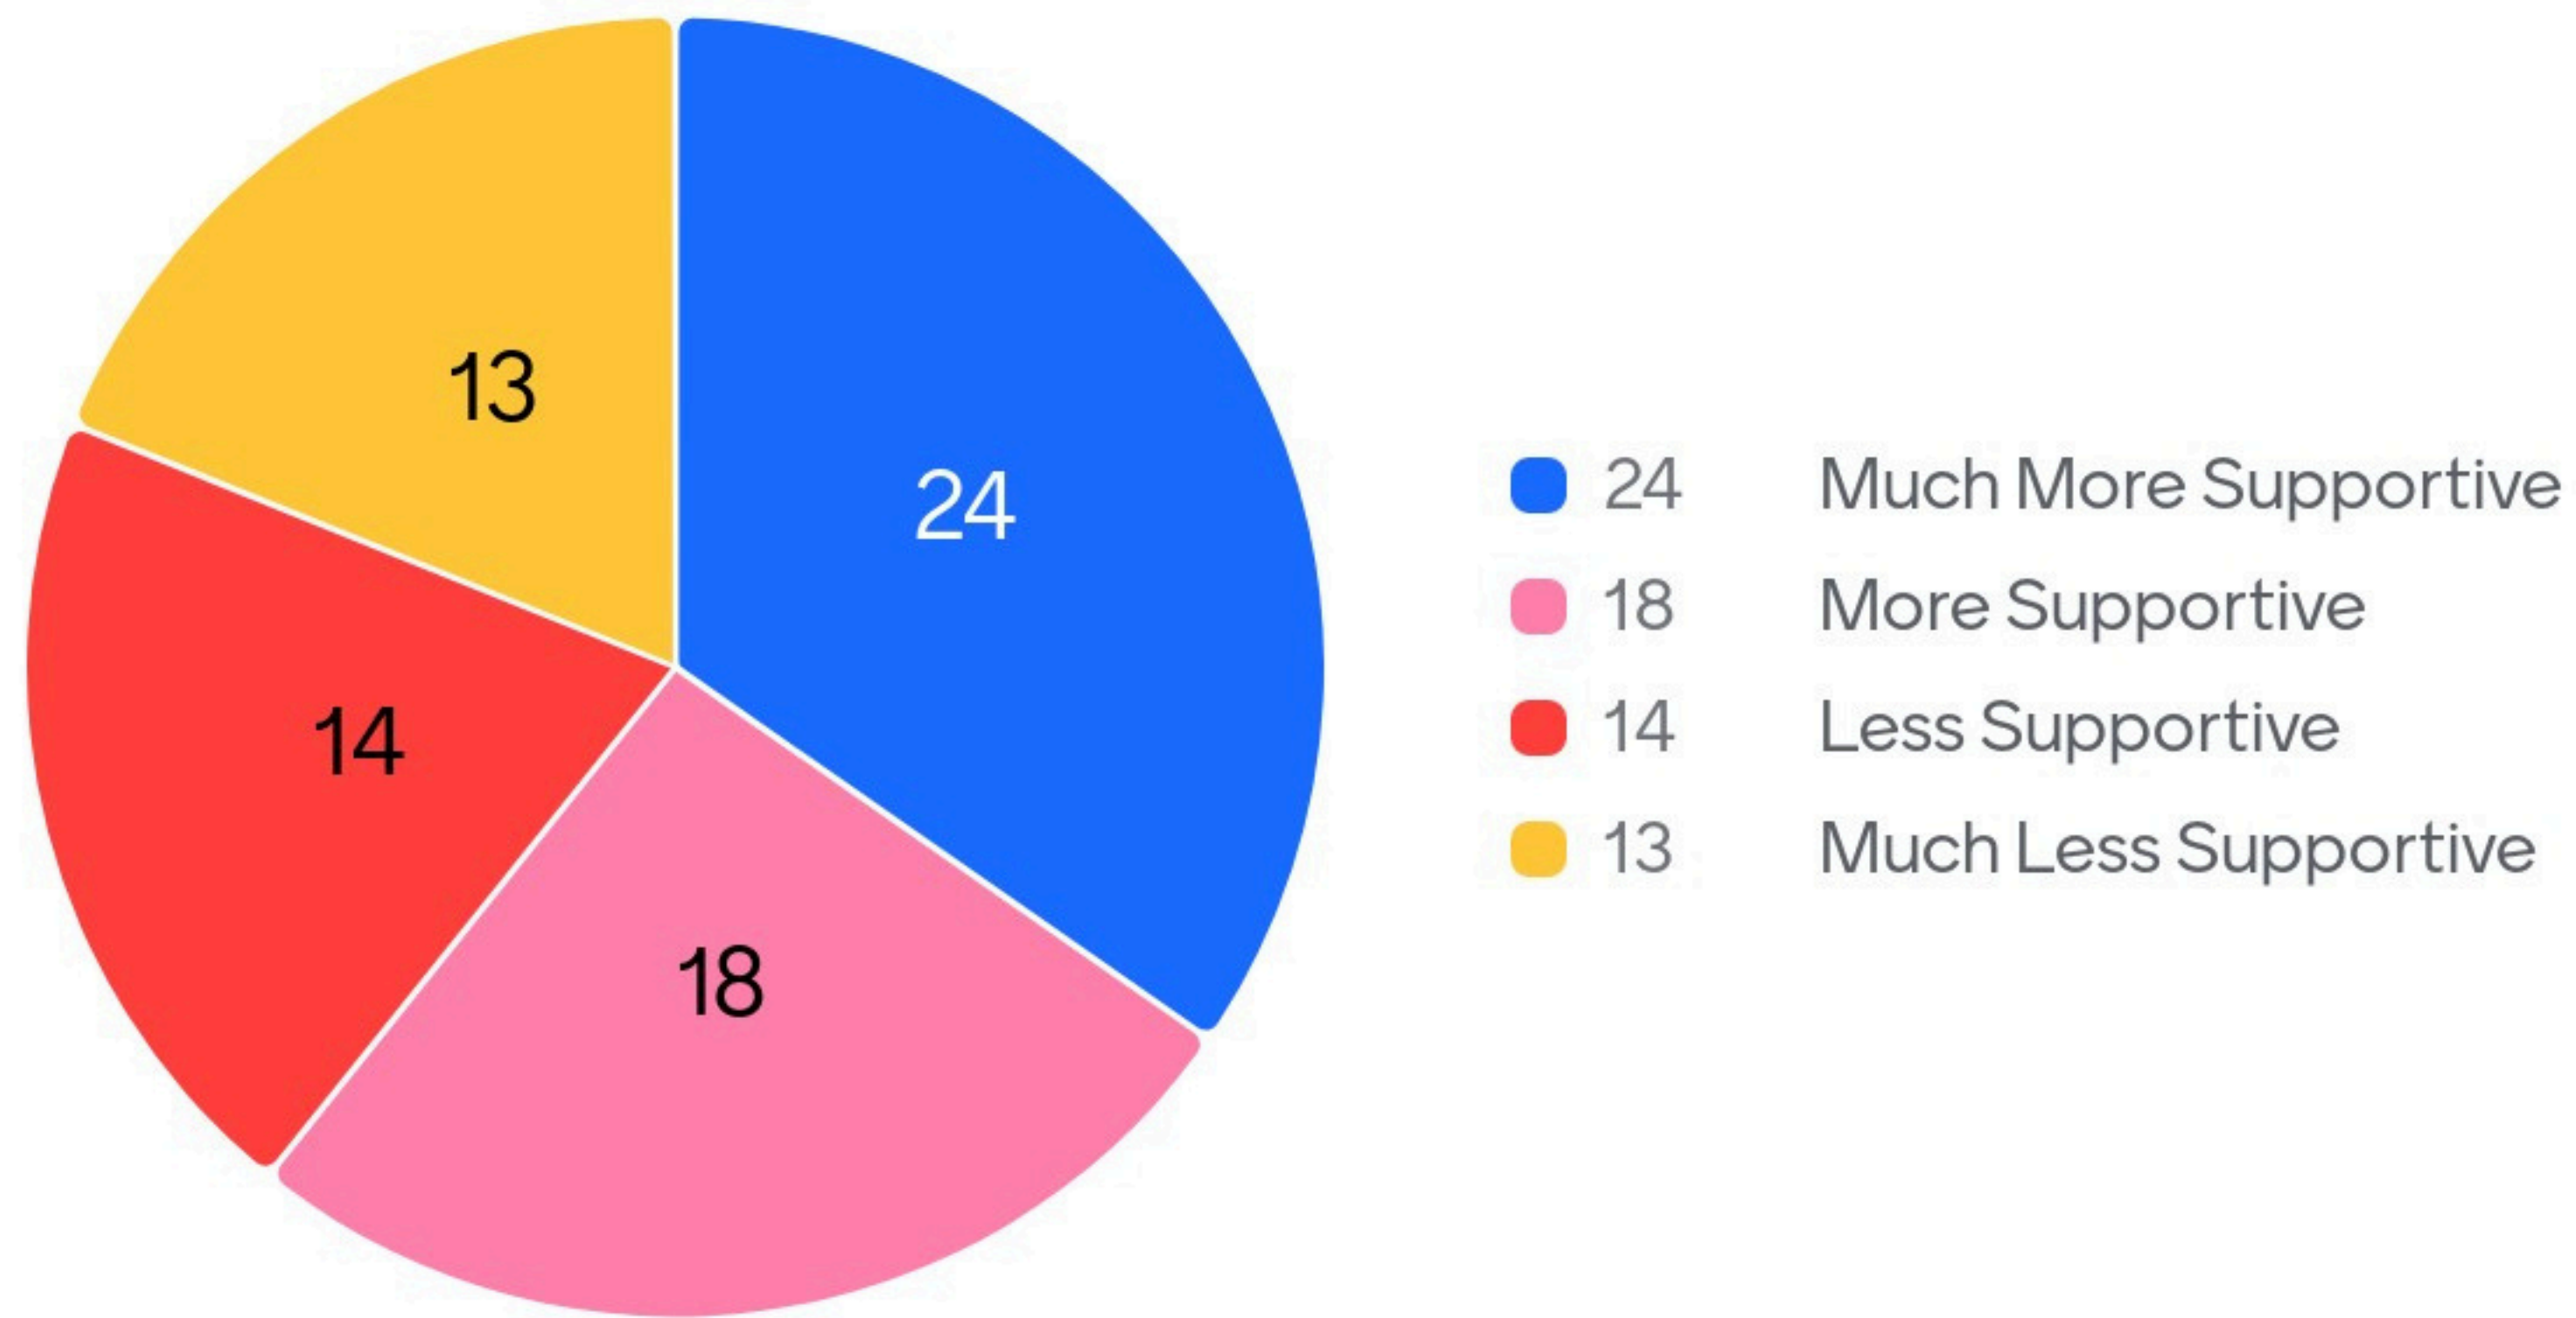

One option for a combined early learning center is to build a new building that is centrally located. How does this impact your support?

*****Note that these are only responses from those who were in the forum*****

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

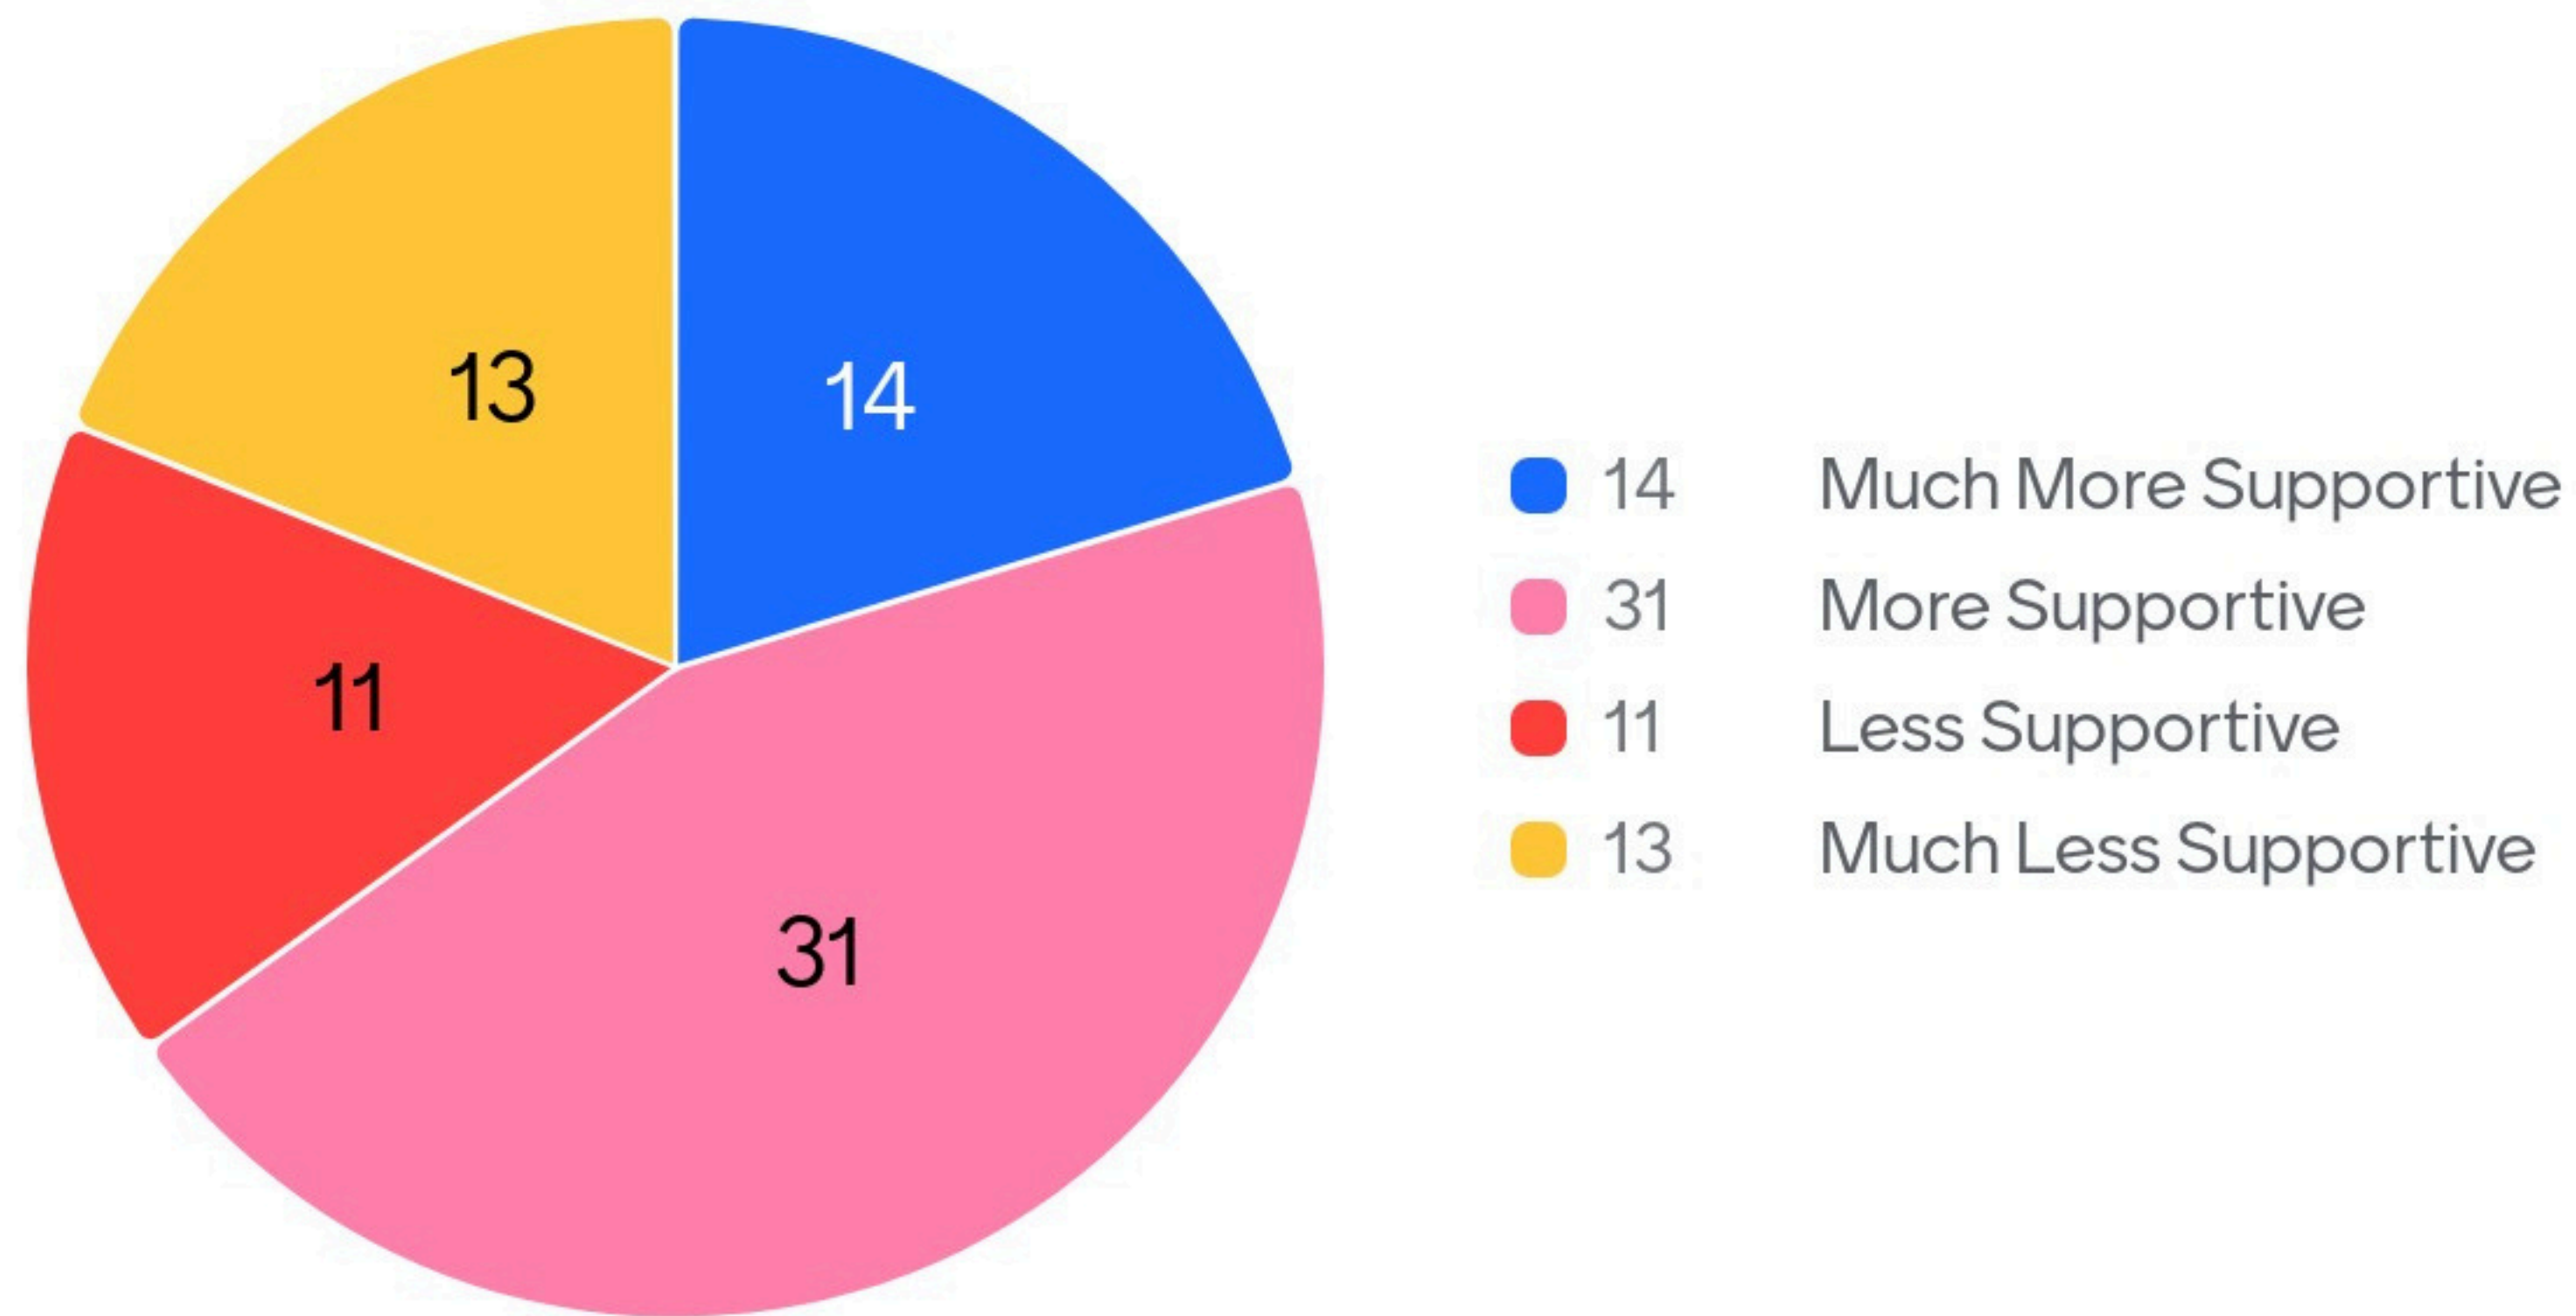

Another option is renovating Gateway into an Early Learning Center and building a new school for grades 3-5. How would this impact your support?

*****Note that these are only responses from those who were in the forum*****

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

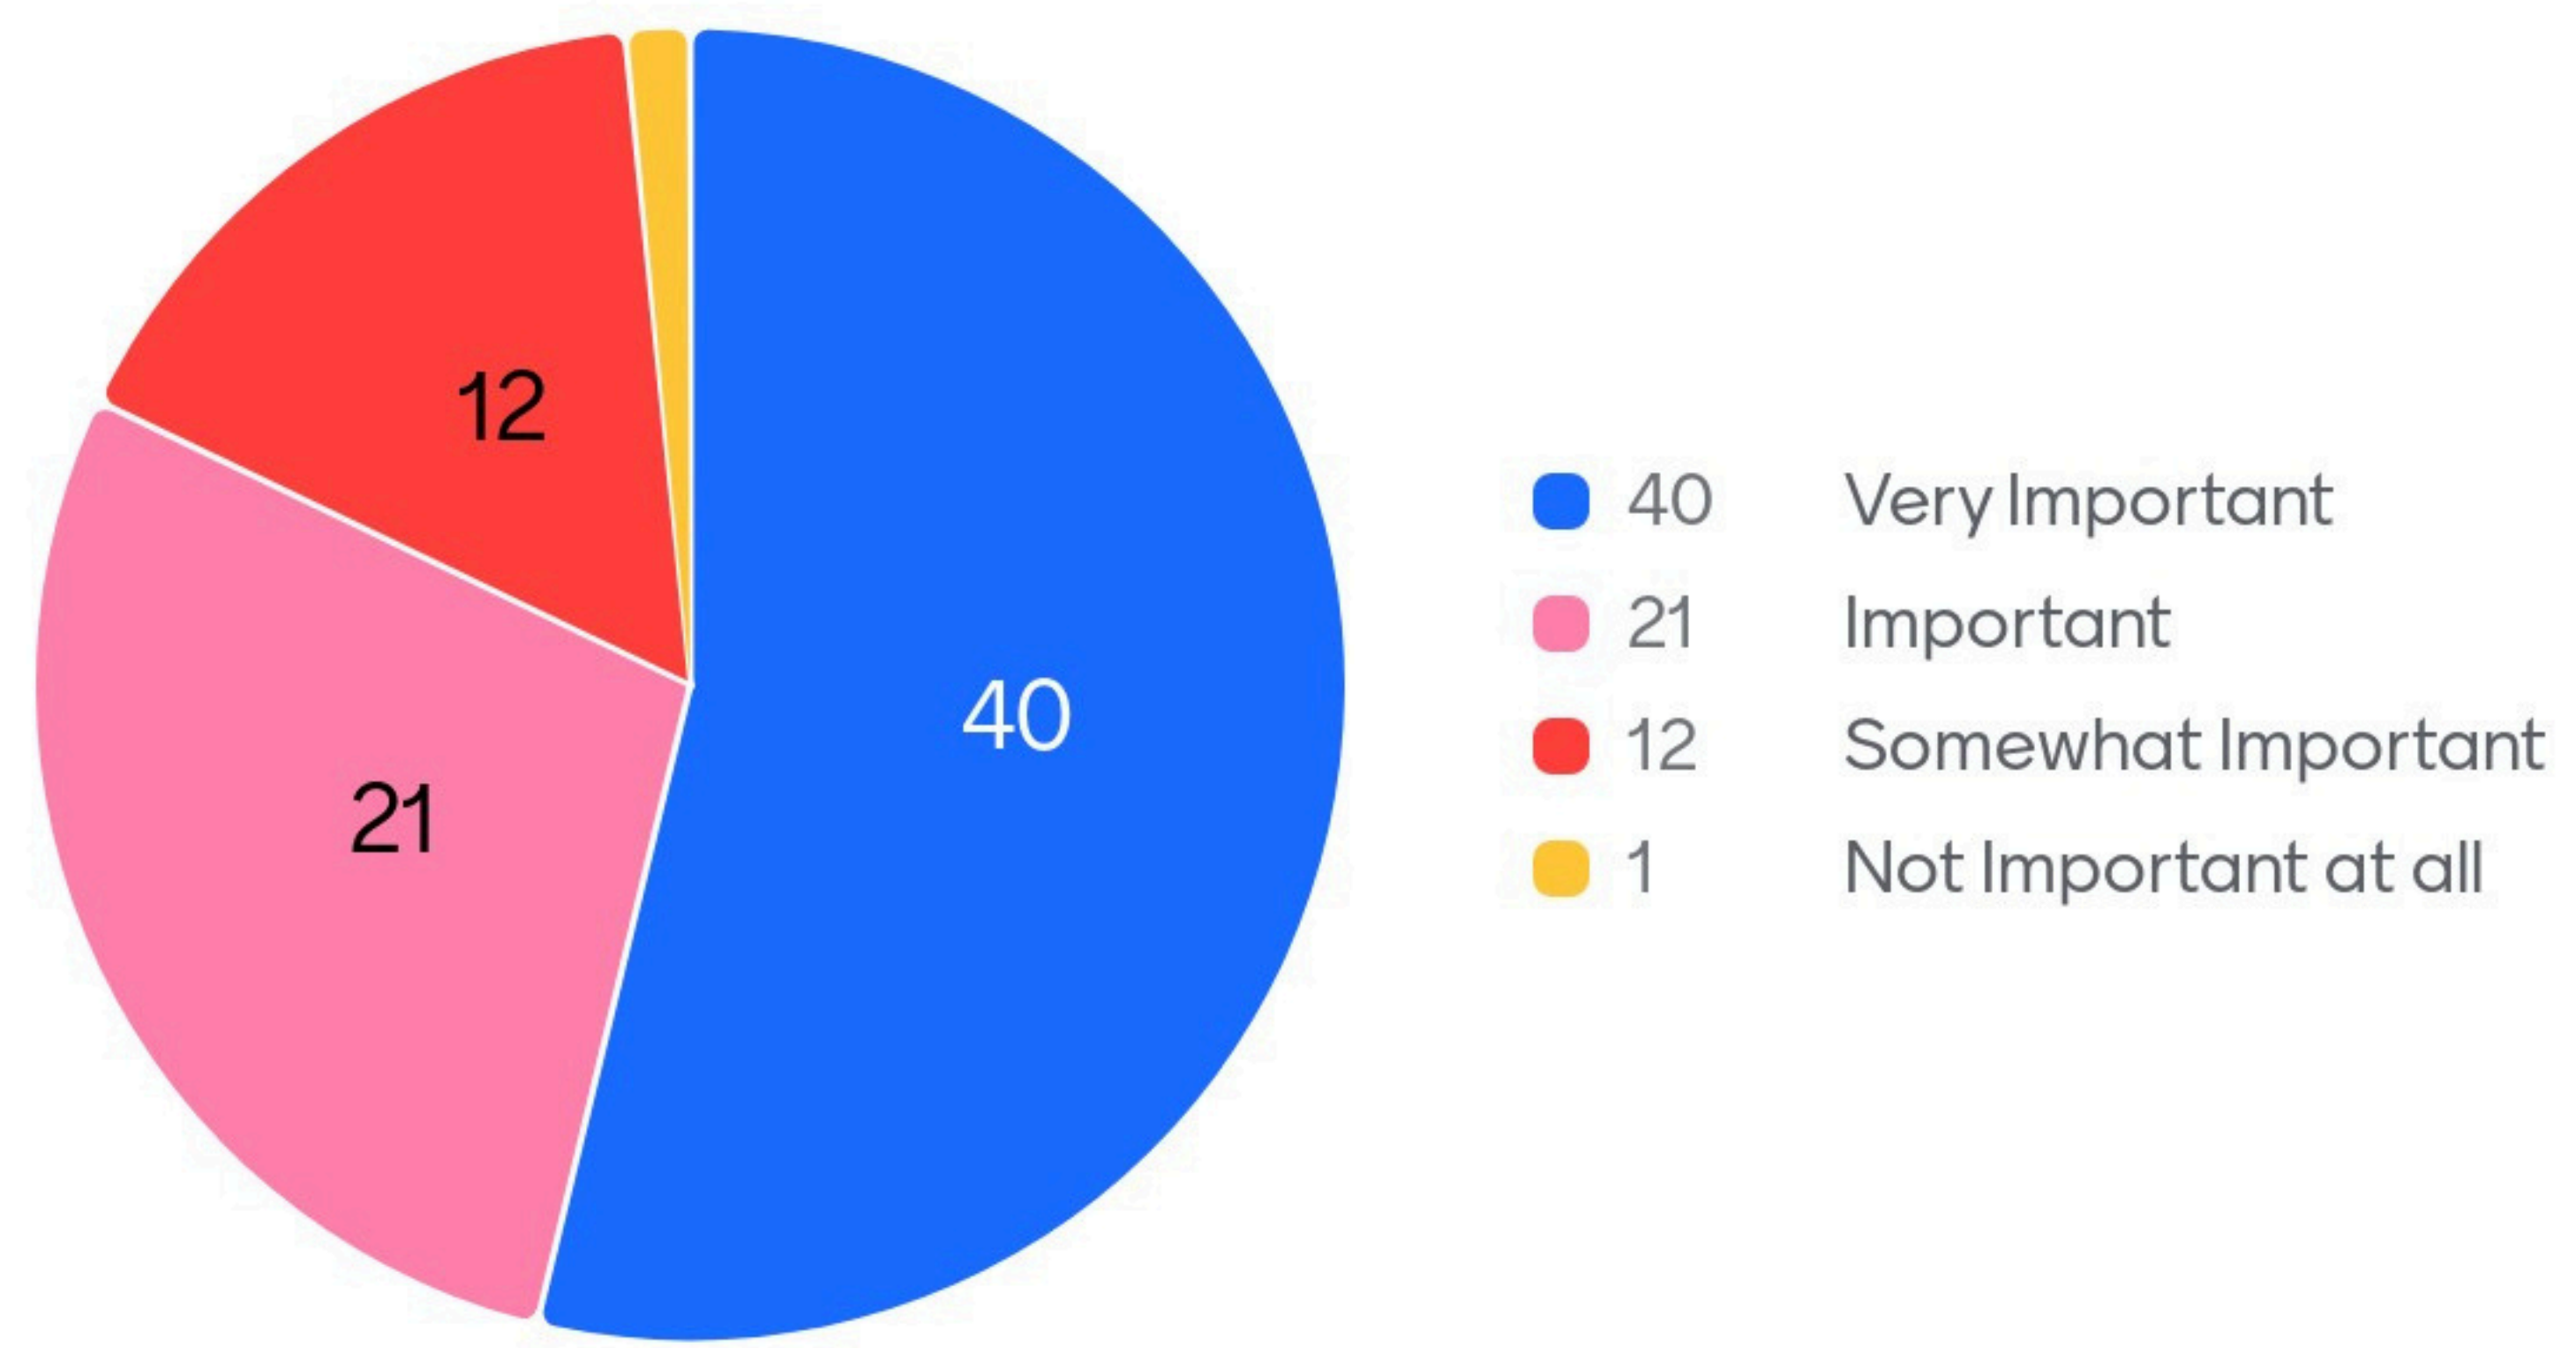

A potential priority identified by the committee is the installation of a multi-purpose turf field for athletics. How important is this to address?

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

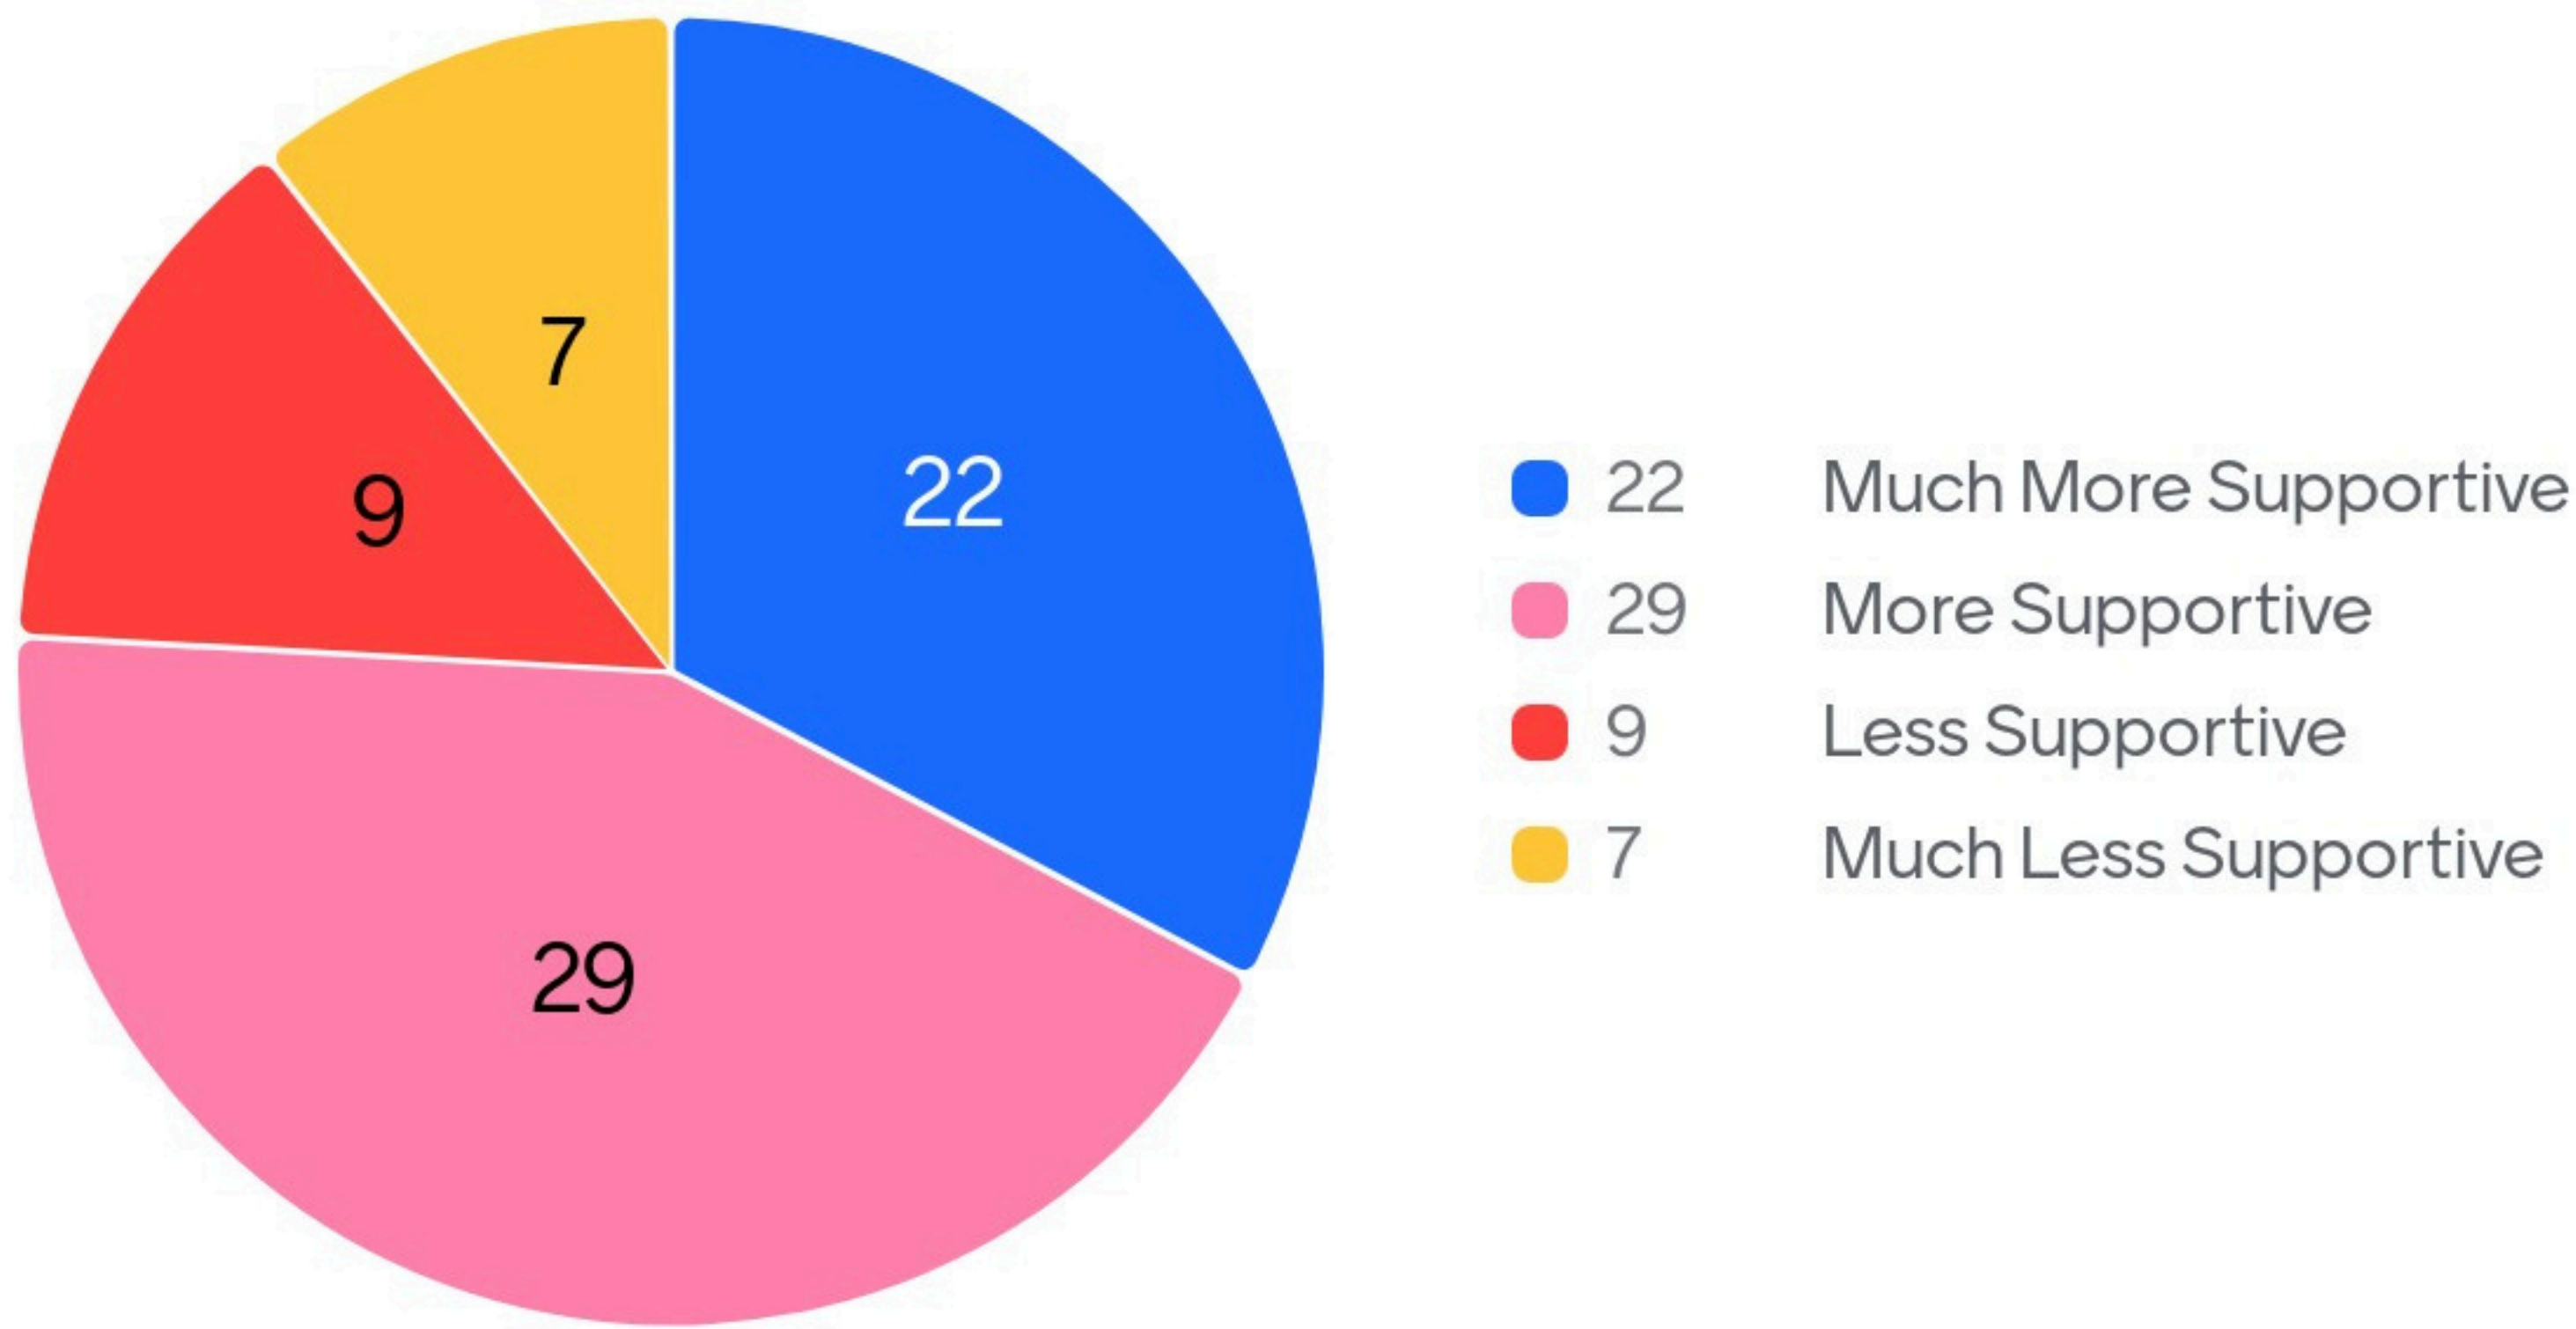

A potential priority is proactively addressing deteriorating parking and failing boilers instead of temporary solutions. How important is this?

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

Recent improvements in property values could generate additional funding without increasing the tax rate. Knowing this, what is your level of support?

Note that these are only responses from those who were in the forum

A scientific, representative survey was simultaneously conducted among community members. Outcomes of that will be shared via our website too.

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

None

Eureka! What are the challenges that were alluded to but not addressed tonight?

Great job by all presenters!

Are we looking to close any buildings?

Why not utilize CCRESA for the early development program!

Do surrounding communities have early childhood centers?

Will daycare be combined with the pre-k and K in one building? If so, how will You manage the security with parents going in and out for drop off/pickup etc.

Will Riley be rebuilt?

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

More clarification on the repurpose of Gateway for EC and building a new building for 3-5. Would it be a better use of money to provide a more state of the art building for 3-5 vs young kids.

At some point in the process I would like to see numbers of how much money is going to what projects and when they would be done.

I am all set - this was a good interactive tool.

Cost estimations would be great.

Are the industrial arts still part of the new bond proposal? Wondering can the turf field be put inside of the middle school field?

Great forum! Thank you

Are the closing of the rural schools totally off the table for the next bond proposal and moving everyone into town to be more efficient.

Would like more information on the process/plan if the bond proposes the 3-5 grade stem new build. What will happen with the outer schools?

What other questions can we help to clarify?

Please visit our [FAQ page](#) for answers to questions!

What's going to happen with the country elementary schools if there's a new building built in town?

For the option of a new 3-5 building, is that ALL 3-5 classes in the district or only those classes currently housed at Gateway?

Thank you for all your work! 100 supporter !

Has there been any consideration of how to better utilize East Olive? Could that building be repurposed for an Early Childhood Center?

How does opening a new early learning center or new 3-5 in town, affect Riley and Eureka's enrollment and class structure?

If you are taking the proposal to the board in November, when will the language of the bond be set?

Can we get a comparison of the things we are needing vs. what other area schools have? How do our facilities compete?

How does the current and proposed debt combined compares to debt of surrounding school districts

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

Will there be more opportunities to hear from the community?

I would be interested in the potential cost of each key item. When spending money, I consider both needs and cost to make a decision.

How many schools are we going to leave vacant in the country with no purpose? Like East Essex for instance!

Addressing the question about future enrollment projections....Is there a way of looking at possibilities of restructuring without a new building if that is not seen as favorable.

EUREKA!! What is the plan for our children in Eurkea?? Bus them to overpopulated, behavior problem stricken in town elementary schools???

Can we still get involved on the committee or as a community member?

With increased taxable property values, will our taxes go up from last year?

Can we build a completely new Riley, while also building a new 3-5 building and also updating eureka?

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

Will there be ways to address the minor issues with other funding?

If we grow the elementary what happens when the numbers grow through the middle and high school? Will they hire more teachers?

I would be supportive if Eureka stays open. How can we guarantee the school will not close?

Have they looked at converting the football field to turf, with having all necessary lighting, concessions, and bathrooms in place already?

What will be the criteria for the aids and teachers from the early on? Will Aba be in the process to evaluate the children that they feel that need additional help, if so how? BCBA in the center?

Should we consider a school-community based sports and recreational indoor facility? Funded by multiple bodies.

What about intra-district school of choice? Would that increase enrollment at Eureka (students in Eureka's boundary) and lessen the burden of over-crowding in-town?

What is being done to show how the money is be responsibly used? What is the cost comparison between closing buildings vs building new?

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

1. Capacity of early education?2. Why not use East Olive for early learning?3. What is the break down of budget items. I don't know if the early education center is 5 million or 85 million.

What is the cost to repair the soccer field vs putting turf on it?

What are the details of the expenses, a breakdown of the funds from the bond? Tgis might not be available yet, but I hope it is shared. Thank you for sharing information.

It would be helpful to have more detailed presentations on the high priority items - maybe recording online. Early childhood center - how much we are paying now for 4 licenses, etc. Turf-cost v value,

Why doesn't CCRESA allow ABA, BCBA and other techs for kids with disabilities?

There has been very little information on the school safety & security aspect ... people's #1 concern..... we need transparency on what is being planned?? Has there been a survey to parents to see what the

Thank you to staff, volunteers, Christman , architects and the parents for all the work on behalf of the children now and in the future!

How could the SC communicate more positive outcomes from the passage of this bond? Could they find/give examples of the effects of bond upgrades on students' lives and how the community would benefit

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

What other costs are expected in next 5 years?
What needs are there in the high school classrooms?

Why not put the turf in the middle school field? Seems way more cost efficient

Providing a breakdown of the portions of funds going toward each priority area would help voters make their decision.

Have they looked at shutting all the country schools down and building a bigger elementary building to accommodate the early learning center?

Why are we not considering updates to the auditorium regarding the potential fly space, sound system, and lighting system? Students safety in this space is also important.

Who is paying for the lady from contractor to be at all the mtg?
How much will you charge for early childcare & before after school care? We worked full time & could not afford to send our 4 kids

How will you market this bond proposal to the community at large? The last proposal took a tone of condescension toward the community instead of addressing relevant concerns.

Understand the needs addressed, but now unclear as to what the next bond proposal will cover specifically...just the early learning center?

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

Detecting kids learning issues how do you go about deciding weather or not they need an IEP?

They want? Panic buttons, metal detectors, school resource officers??

How are you going to show us that maintenance budgeting is going to be sufficient to reduce the need for replacement?

How will the district make sure the new facilities, remodels, upgrades be of sound quality so they will last? The middle school should have had a metal roof installed to begin with.

What is the time frame set for this bond proposal and completion?

What happens to 1st and 2nd grades? How does this bond directly affect Riley and all the MAJOR needs there? Will there be a project manager liason that will catch things on our behalf?

What savings at the early childhood center, by consolidation, personnel, licensing? is there different levels of turf quality, cost difference? How to make the sun surface and drainage lasts 30 y

Also a suggestion...make sure you communicate that the childhood center will house Little Wings and Adventure Club. We did not realize that until tonight, so makes us more supportive.

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

How much debt has been paid the last 5 year due to increased property values?

I feel the athletic facilities could have been maintained better over the years & wonder if the large cracking was due to poor workmanship that should have been addressed with the contractor?

I'm not sure why people on a fixed income who have already raised their kids, quite well I may add, are asked to pay for others childcare just so you can indoctrinate them sooner. Increased taxes suck

The increased cost of housing in the school district will obviously allow you more funding but it will also increase my property taxes.

You say kids are different today. Maybe if parents were to arrange their work schedules to accommodate the children then they could keep the kids off social media. My wife and I did.

Soccer is supposed to be played on grass not artificial turf. Why are you looking at turf?

How much did the solar panels cost to save us \$3000 a month?

With the increase in rooms and decreases in class sizes. How much more staff will need to be hired?

What other questions can we help to clarify?

Please visit our FAQ page for answers to questions!

Does the school district make any money from holding tournaments such as tennis and basketball?

What percentage of staff live within the school district?

How many athletic scholarships are earned on average each year?

Why don't we pay off the old debt first?

How will you attract DINK's to support bond proposal?

What is the difference between wants and needs?

What are the odds that the same people who are for the bond also voted for prop 3 two years ago? Yes, they should be related.

How many more students are in the school system now than in 2000? All of the sociologists predict that fewer children will be born.

What other questions can we help to clarify?

How many of the lower income children are from illegal immigration?

You say that students need sports and extracurricular activity to develop social skills. Have them volunteer along with their parents.
