LINKS are peer role models, mentors, tutors, and friends. They mentor students with Autism Spectrum Disorders (ASD) in both academic and social settings, with adult supervision. The LINK student’s commitment requires permission from parents or guardians.

The LINK curriculum benefits typical students and students with a disability in reciprocal manner. The LINK student learns, through participation in the curriculum, to act as an advocate and a mentor for a student with a disability as they master content standards. The interactive nature of instruction enables the LINK to consistently broaden the range of opportunities for the student who has a disability. LINK students are engaged with students who have disabilities in the classroom as well as environments outside of the classroom.
