

S.T.R.I.V.E. Academy

Virtual Learning Agreement

Dear Student and Parents:

Welcome to S.T.R.I.V.E. Academy Alternative Education! Recognizing that all students are unique, we also understand that some may thrive in an alternative learning environment beyond the traditional high school experience. Therefore, we have created this virtual learning opportunity, to recapture those students in need of another chance as well as those who seek an alternative to the traditional high school experience. While this program is open to all St. Johns Public Schools High School students, it is important to recognize that the structure of this program was designed with the following in mind:

- Recognizing that life happens, this program is primarily designed to help students from grades 10 through 12 grade who have fallen two or more credits behind. Special exceptions may be made for 9th grade students with agreement of school administration.
- This program is primarily designed to help students between the ages of 16 to 18 who have previously dropped out of school and would like to earn a high school diploma.
- While the graduation requirements of 24 credits at S.T.R.I.V.E. are less than the district required 30 credits for the traditional high school, the S.T.R.I.V.E. academic standards are designed to go beyond the minimum state requirements for a diploma and flexible to the needs of the students.

Thanks for choosing S.T.R.I.V.E. Academy. We look forward to a successful school experience!

Sincerely,

S.T.R.I.V.E. Staff

I, _____ have read the information in the Student/Parent Handbook. I fully understand the rules and policies in effect, and understand that by enrolling my student at S.T.R.I.V.E. Academy, I accept the responsibility for abiding by them. By signing this agreement, I am giving consent for my student to be enrolled in, and participating in virtual learning courses, and will not be in a traditional classroom setting.
